Armağan Emre Çakır

United States Turkey's Path to Europe:

The United States and Turkey's Path to Europe Armağan Emre Çakır, 2015-12-22 Turkey's relations with the European Union is one of the most enigmatic topics in the European Studies literature. This country kept at bay by Europeans for centuries once came unexpectedly close to full membership. The progress Turkey recorded in its European quest is difficult to account for with either Turkey's performance or the positive attitude of the Europeans towards Turkey. In this book Armağan Emre Çakır chronicles over six decades of US involvement in EU-Turkey relations. Shedding new light on the reasons, characteristics, transformation and relative importance of the US influence on Turkey-EU relations, he argues that Turkey's quest for EU membership would not have advanced this far without the support from the United States. Çakır's hypotheses and findings are grounded in original research that among other things includes interviews conducted on both sides of the Atlantic with key players, archival material and newspaper articles. The valuable insights presented in this book make for a much needed alternative history of this volatile relationship.

European Union Enlargement Vincent Morelli, 2011-04 Oct 2010 marked the 5th anniversary of the EU's decision to proceed with formal negotiations with Turkey towards full membership in the EU. It also marked the beginning of the annual period when all three EU institutions, the Council, Commission and Parliament, provide their assessment of the progress Turkey had made in the accession process over the last year and to issue recommendations on how Turkey's accession process should proceed. Despite changes taking place in Turkey, its EU accession process continued at a relatively slow pace. Contents of this report: The EU Accession Process, Turkey's Initial Path to EU Accession, Current Status of Turkey's Accession, The Cyprus Dilemma, US Perspectives, Assessment. This is a print on demand report.

New Perspectives on Turkey-EU Relations Chris Rumford, 2014-10-29 This book makes the case for looking afresh at Turkey-EU relations in order to appreciate the richness and complexity of a relationship which is now more than 50 years old and is still not close to reaching fulfilment. The contributors challenge conventional attempts to understand Turkey-EU relations, revealing that EU integration studies has been rather poor at understanding the global context within which Turkey-EU developments take place. More surprising perhaps, EU integration studies has also struggled to give sufficient weight to the potential of Turkey's domestic politics to shape EU enlargement. The volume attempts to correct these imbalances by offering both a global context and new perspectives on the drivers of domestic politics. It represents a shift from a narrow EU integration/enlargement agenda. Turkey's position vis-à-vis the EU cannot be adequately captured by simplistic notions of conditionality, harmonization and an uncritical interpretation of Europeanization. A more rounded view of Turkey-EU relations is advanced based upon a broader context of European and global transformations. The contributions collected here offer an interpretation of Turkey-EU relations from a novel perspective, utilize a new framework of theory and draw upon insights and perspectives from disciplines underrepresented in mainstream study of Turkey-EU relations. This book was published as a special issue of the Journal of Contemporary European Studies.

Turkey's Accession to the

European Union Edel Hughes, 2010-10-04 Turkey's accession to the European Union is undoubtedly one of the Union's most contested potential enlargements. The narrative that dominates the debate surrounding this issue primarily relates to problems such as a lack of respect for fundamental human rights in Turkey, the Kurdish question, and the continuing stalemate concerning northern Cyprus. This book looks at these issues but also proposes that a review of Turkey's experience with the EU in its numerous incarnations suggests that these concerns may mask a deeper disquiet. Whilst there are several questions that Turkey must address, particularly in the area of human rights guarantees, the concerns which raise debates regarding Turkish membership are not issues that are unique to Turkey. Turkey's EU experience also raises fundamental questions about religion and the EU project that have greater implication than simply Turkish accession. Through the lens of the Turkish example, this book addresses these broader questions such as the nature of European identity, Europe's Christian past, the limits of pluralism, and the fundamental question of religion in the European public sphere. This book will be of great interest to those engaged in research on European law and politics at undergraduate or postgraduate level. It is also aimed at academics with an interest in human rights and the European Union and with a regional interest in Turkey.

Europe and the Historical Legacies in the Balkans Raymond Detrez, Barbara Segaert, 2008 The enlargement of the EU with the Balkan countries has aroused the skepticism of many. Although EU admission is primarily a matter of economic and political concerns, questions of cultural import are readily brought into play. Does the country in question conform sufficiently to our standards of a European identity? The problematic status of the Balkans in this respect largely consists in their common Byzantine and Ottoman legacies. By focusing on Bulgaria and its neighbours, Romania, Greece, and Turkey, the authors of this collection attempt to elucidate how mutually incompatible the cultural identity of the Ottoman successor states and that of Europe are. Ample attention is devoted not only to the perception of the Balkans in the West but also to the self-image of people in the Balkans and perceptions they hold of

the West If anything like a Balkan identity can be said to exist what is its relation to the various ethnic national religious and linguistic communities Notably what was and is the role played by religion in nation state formation The relationship with Europe forms the thread that runs through the discussion of these issues *Turkey in the North Atlantic Marketplace* Daniel S.
