movies and on roadside billboards In fact bigfoot is everywhere with actors portraying him in variously believable performances and it has become the popular notion that bigfoot is both dangerous and horny Indeed bigfoot is out there stalking lover s lanes and is even more lonely than those frightened teenagers that he sometimes interrupts Bigfoot tall and strong as he is makes a poor leading man in the movies with his awkward personality and typically anti social behavior He doesn t care a skunk s gland how many movies or commercials are made about him without any royalties whatsoever being paid To him Bigfoot Nation is all about style a lifestyle shall we say that keeps bigfoot on the fringes of society gently creeping into our dreams Join David on a wild ride from the very first bigfoot reports in the 1800s to right now Chapters include 1800 to 1899 The Wildmen of the Frontier The Oldest Bigfoot Photo 1900 to 1940 The Pre War Years 1950 to 1990 The Post War Years The Skunk Apes of Swamp Nation Bigfoot in the Southwest 2000 to 2020 Post Millennial Bigfoot more Includes 16 pages of color photos that document Bigfoot Nation **Lost Race of the Giants** Patrick Chouinard,2013-09-28 An exploration of mythological and archaeological evidence for prehistoric giants Examines the many corresponding giant mythologies throughout the world such as the Greek and Roman titans Norse frost giants and the biblical Nephilim Reveals recent finds of giant skeletons in the deserts of Saudi Arabia and India Explains how giants passed on their sophisticated culture and civilization to humanity before being wiped out in the great age of cataclysms and floods Giants are a cornerstone of the myths legends and traditions of almost every culture on Earth Stories of giants are often considered fantasies of the ancients or primitive attempts to explain natural phenomena but archaeological discoveries of 10 and 12 foot skeletons many of which have been suppressed confirm the existence of a forgotten golden age of giants before recorded history Patrick Chouinard examines the staggering number of corresponding giant mythologies throughout the world such as the Greek and Roman titans Norse frost giants the Hindu Daityas the biblical Nephilim the Celtic Formorach the Sumerian Anunnaki and the multitude of myths in which the sky or world is held aloft on the shoulders of a giant He links these stories to Atlantis as well as other legends of prehistoric civilizations lost to cataclysm and great floods whose survivors spawned the rise of ancient civilizations The author reveals how physical remains of giant size peoples have been found on almost every continent including recent finds in the deserts of Saudi Arabia Afghanistan and northern India as well as hundreds of excavations of giant mummies and skeletons across the United States corresponding directly with Native American accounts of red haired giants He also examines reports from famous explorers such as Magellan Sir Francis Drake and Desoto of their encounters with giants on the North American continent Revealing how giants represent the true earthborn race Chouinard explains how they engaged in open conflict with the extraterrestrial gods who created humanity for forced labor and how they passed their sophisticated culture and civilization on to humanity before being nearly wiped out in the great age of cataclysms **Bigfoot and Other Ape-Men** Stuart Webb,2012-07-15 The native peoples of North America are the source of the oldest stories about Sasquatch Tales circulated about a wild man of the woods and several newspapers reported of scary

Hill,2017-11-28 In the 21st century reality television and the Internet have fed public interest in ghosts UFOs cryptozoology and other unusual phenomena By 2010 roughly 2000 amateur research and investigation groups formed in the U S ghost hunters Bigfoot chasers and UFO researchers using an array of supposedly scientific equipment and methods to prove the existence of the paranormal American culture s honorific regard

for science coupled with the public's unfamiliarity with scientific methods created a niche for self-styled paranormal experts to achieve national renown without scientific training or credentials. The author provides a comprehensive examination of the ideas, missions, and methods promoted by these passionate amateurs. [Searching for Bigfoot](#) Greg Cox, Stewart Cowley, 2011-08-15 Describes the legends of the man-beast Bigfoot including the worldwide history of Bigfoot, claims, the scientific analysis behind evidence of the creature's existence, and references to Bigfoot in art, literature, and the media.

The Most Mysterious Places on Earth Nick Redfern, 2013-07-15 Just what makes a locale one of the world's most mysterious places is a subject open to debate. But if Bigfoot, UFOs, and chain rattling ghosts all appear in one particular location, time and again, along with a fantastic range of other bizarre phenomena, then this is highly suggestive that the place is truly weird and mysterious. In the extreme. Readers will learn startling truths of these amazing paranormal locations and uncanny hot spots. Included are eerie haunts scattered across the United States, Russia, Canada, and just about everywhere in between, including such infamous locales as Death Valley, the Bermuda Triangle, Loch Ness, and even the New York City subway. Also addressed are the various theories that have been posited to explain why such places have become so infinitely weird in the first place. This is a wild tour of the world and its many rich cultures and folklore that reveals the top twenty-five places on Earth that are well incredibly weird and mysterious. [Holy Ice](#) Paulinne Delcour-Min, 2020-06-16 Holy Ice takes us on a breathtaking journey through time to the heart of the mystery of the crystal skulls. Revered by shamans, held by indigenous peoples, displayed in the museums of the world, the crystal skulls are ancient artefacts that can inspire us to awaken to our power. Change is coming, climate change, pollution, today's environmental crisis shows that the old ways aren't working. We can't stop change, but we can choose to work with it and bring in a Golden Age. In Holy Ice, past-life memories researched through regression span from Atlantis to the present day, building a cosmic vision for the future. Those who forget the past are doomed to repeat it. Here are the secrets of time. [Vril: Secrets of the Black Sun](#) David Hatcher Childress, 2024-03-04 Childress reveals numerous secrets of the Black Sun in this final volume in his series about the Fourth Reich. David Childress, popular author and star of the History Channel show *Ancient Aliens*, unveils the amazing story of the German flying disks designed and built during WWII. It was not until 1989 that a German researcher named Ralf Ettl, living in London, received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft, including the Vril, Haunebu, and Andromeda. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe. What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military, particularly the SS, continued to operate aircraft and submarines around the world in the decades after the end of the war. This volume closes with how the SS operates today in Ukraine and how the Wagner second-in-command, Dmitry Utkin, killed in the fiery crash of Yevgeny

Prigozhin's private jet between Moscow and St Petersburg in August of 2023 had SS tattoos on his shoulders and often signed his name with the SS runes. Chapters include Secrets of the Black Sun The Extra Territorial Reich The Rise of the SS The SS Never Surrendered Secret Submarines Antarctica Secret of the Vril The Marconi Connection Spectre the SS and 007 Yellow Submarine Ukraine and the Battalion of the Black Sun more Includes an 8 page color section Over 120 photographs and diagrams **California Librarian**, 1977 Includes Handbook and proceedings of the annual meeting of the California Library Association **Andromeda: The Secret Files** David Hatcher Childress, 2021-11-01 David Childress popular author and star of the History Channel show Ancient Aliens brings us the amazing story of the German Andromeda craft designed and built during WWII Along with flying disks the Germans were making long cylindrical airships that are commonly called motherships large craft that house several smaller disk craft It was not until 1989 that a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft including the Andromeda Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate aircraft and submarines around the world in the decades after the end of the war Much of this activity has been attributed to UFO activity but Childress lifts the veil shrouding some of these cases and shows that Andromeda and Haunebu craft were involved in many of these incidents over the decades Join Childress as he shows us the secret files involving the Andromeda Haunebu and Vril craft Chapters include Gravity's Rainbow The Motherships The MJ 12 UFOs and the Korean War The Strange Case of Reinhold Schmidt Secret Cities of the Winged Serpent The Green Fireballs Submarines That Can Fly The Breakaway Civilization more Includes a 16 page color section Over 120 photographs and diagrams [American Myths, Legends, and Tall Tales](#) Christopher R. Fee, Jeffrey B. Webb, 2016-08-29 A fascinating survey of the entire history of tall tales folklore and mythology in the United States from earliest times to the present including stories and myths from the modern era that have become an essential part of contemporary popular culture Folklore has been a part of American culture for as long as humans have inhabited North America and increasingly formed an intrinsic part of American culture as diverse peoples from Europe Africa Asia and Oceania arrived In modern times folklore and tall tales experienced a rejuvenation with the emergence of urban legends and the growing popularity of science fiction and conspiracy theories with mass media such as comic books television and films contributing to the retelling of old myths This multi volume encyclopedia will teach readers the central myths and legends that have formed American culture since its earliest years of settlement Its entries provide a fascinating glimpse into the collective American imagination over the past 400 years through the stories that have shaped it Organized alphabetically the coverage includes Native American creation myths tall tales like George Washington

chopping down his father's cherry tree and the adventures of King of the Wild Frontier Davy Crockett through to today's urban myths. Each entry explains the myth or legend and its importance and provides detailed information about the people and events involved. Each entry also includes a short bibliography that will direct students or interested general readers toward other sources for further investigation. Special attention is paid to African American folklore, Asian American folklore, and the folklore of other traditions that are often overlooked or marginalized in other studies of the topic.

Unexplained Phenomena John Michell, Bob Rickard, Robert J. M. Rickard, 2000. *The Rough Guide to Unexplained Phenomena* is an exploration of the zone that lies between the known and the unknown, a shadowy territory that's home to lake monsters, combusting people, teleporting frogs, and man-eating trees. Taking a Fortean path between dogmatic scientists and credulous believers, the authors trace tales of wonder back to their sources, drawing from a huge archive of observations, opinions, and discussions. As the third millennium begins, many things are not yet known or understood about our world, as this Rough Guide shows: there are still many riddles to solve and wonders to experience.

Religion, Culture, and the Monstrous Joseph P. Laycock, Natasha L. Mikles, 2021-02-15. *Religion, Culture, and the Monstrous: Of Gods and Monsters* explores the intersection of the emerging field of monster theory within religious studies. With case studies from ancient Mesopotamia to contemporary valleys of the Himalayas to ghost tours in Savannah, Georgia, the volume examines the variegated nature of the monstrous as well as the cultural functions of monsters in shaping how we see the world and ourselves. In this, the authors constructively assess the state of the two fields of monster theory and religious studies and propose new directions in how these fields can inform each other. The case studies included illuminate the ways in which monsters reinforce the categories through which a given culture sees the world. At the same time, the volume points to how monsters appear to question, disrupt, or challenge those categories, creating an unsettling or surplus of meaning.
