revolutionized family history research every day new records and resources are placed online and new methods of sharing research and communicating become available Never before has it been so easy to research family history and to gain a better understanding of who we are and where we came from But as British genealogist Chris Paton demonstrates in this straightforward practical guide while the internet is an enormous asset it is also something to be wary of Researchers need to take a cautious approach to the information they acquire on the web Where did the original material come from Has it been accurately reproduced Why was it put online What has been left out and what is still to come As he leads researchers through the multitude of resources that are now accessible online with an emphasis on UK and Ireland sites Chris Paton helps to answer these questions He shows what the internet can and cannot do and he warns against the various traps researchers can fall into along the way

Do Archives Have Value? Michael Moss, David Thomas, 2019-08-01 This book will explore ways of establishing value in the archives by using a variety of methodologies and exploring a range of contexts In the United Kingdom DCMS uses various valuation matrices to allocate resources whilst other organizations both internationally and domestically such as local authorities and universities are following suit In some contexts in the UK other developed countries and particularly developing countries archives have an evidential value to redress grievances and to assist in the fight against fraud and corruption The retention of records for evidential value demands the retention of case papers relating to individuals that until now have not normally been retained As more and more record keeping becomes digital costs of preservation will inevitably increase which makes developing methodologies to justify additional costs urgent particularly in poorly resourced developing countries which have been encouraged to go digital by aid agencies and donor countries This book will be useful reading for professional archivists and students on archival studies courses In the wider world of cultural heritage valuation is of increasing importance in justifying services and bidding for scant resources As a result *Do Archives Have Value* will also be of interest to senior management with oversight of libraries and museums owners of collections and external funders
