Marsh,2010-01-21 Discrediting mystical or psychical interpretations of out of body and near death experiences Michael Marsh demonstrates how these phenomena are explicable in terms of brain neurophysiology and its neuropathological disturbances and discusses the theological and philosophical implications of his hypotheses Near-Death Experiences Ornella Corazza,2008-06-30 Near death experiences fascinate everyone from theologians to sociologists and neuroscientists This groundbreaking book introduces the phenomenon of NDEs their personal impact and the dominant scientific explanations Taking a strikingly original cross cultural approach and incorporating new medical research it combines new theories of mind and body with contemporary research into how the brain functions Ornella Corazza analyses dualist models of mind and body discussing the main features of NDEs as reported by many people who have experienced them She studies the use of ketamine to reveal how characteristics of NDEs can be chemically induced without being close to death This evidence challenges the

conventional survivalist hypothesis according to which the near death experience is a proof of the existence of an afterlife
