Thin Layer Chromatography For Binding Media Analysis Tools For Conservation:

Thin-Layer Chromatography for Binding Media Analysis Mary F. Striegel, Jo Hill, 1997-04-24 In the study and conservation of art and artifacts natural organic materials are frequently encountered in components such as coatings binders and adhesives The identification of these materials is often crucial to the attempt to characterize the technologies employed by artists or craftspeople understand the processes and causes of deterioration and plan appropriate conservation treatments Yet the limited resources of many conservation laboratories put many analysis techniques beyond their reach Thin layer chromatography can help fill this gap The volume consists of a handbook protocols and guide to reference materials The handbook serves as a primer for the basic application of thin layer chromatography to the analysis of binding media adhesives and coatings found on cultural objects the protocols provide step by step instructions for the laboratory procedures involved in typical analyses and the guide to reference materials aids in the understanding of the types of materials and documentation needed for accurate analyses by thin layer chromatography
