Third Voice British American Princeton:

Mirrors of Our Playing Thomas Russell Whitaker, 2025-12-10 For centuries theater has maintained a central role in the development and preservation of artistic social and political themes in society Yet in recent decades theater has taken an increasingly marginal role In this book Thomas R Whitaker examines the reasons for the marginalization of this important and influential art form considering not only histories of various dramatic forms but also the individual histories of various playwrights and their times In so doing he explores the importance of perceiving drama in a different light as a participatory tool a mirror that reflects life as it unfolds and plays out before us Whitaker s unique and comprehensive study of drama poses theater as a collaborative and interactive experience an experience that involves not only the playwright the text and the artists but the audience as well as the society and culture of that audience Contrary to the common critical belief that drama can only be theorized as a performed action Whitaker conceptualizes drama as an interaction between a performed action and an action of performance The whole of *Mirrors of Our Playing* is founded on the understanding that a play is a manifold mirror of the playing that is our lives therefore the play is shaped by a complex interaction between the paradigms that make up our view of the world and the reflection of these paradigms in the mirror that is the play Focusing on both scripts and performance *Mirrors of Our Playing* takes a fresh look at modern English speaking drama from its Anglo Irish beginnings to its contemporary cross fertilizations and international dispersals It shows how most important English speaking theater has been shaped in accord with several major paradigms while it examines four major presences in that theater Lord Byron Samuel Beckett Wole Soyinka and Peter Brook *Mirrors of Our Playing* stands on the borderlands between text oriented and performanceoriented criticism It seeks to extend our knowledge of the history of modern drama in English as that drama has engaged certain paradigms of performance It is therefore grounded in close textual analysis of a great many texts that are understood as scripts for performance Its several chapters incorporate as they proceed a variety of subordinate strategies the placing of theater in historical context the comparison of closely related plays the charting of historical sequences of development within a given genre or paradigm examination of the influence of a historical figure or of contemporary works and the tracing of the exploratory development of a major director Experience and Faith R. Brantley, 2016-04-30 Emily Dickinson 1830 86 recasts British Romantic themes of natural and spiritual perception for an American audience Her poems of science and technology reflect her faith in experience Her lyrics about natural history build on this empiricism and develop her commitment to natural religion Her poems of revealed religion constitute her experience of faith Thus Dickinson stands on the experiential common ground between empiricism and evangelicalism in Romantic Anglo America Her double perspective parallels the implicit androgyny of her nineteenth century feminism Her counterintuitive combination of natural models with spiritual metaphors champions immortality The experience faith dialectic of her Late Romantic imagination forms the heart of her legacy *Mirrors of Our Playing* Thomas R. Whitaker, 1999 Focusing on both

scripts and performance *Mirrors of Our Playing* takes a fresh look at modern English speaking drama from its Anglo Irish beginnings to its contemporary cross fertilizations and international dispersals It shows how most important English speaking theater has been shaped in accord with several major paradigms while it examines four major presences in that theater Lord Byron Samuel Beckett Wole Soyinka and Peter Brook Whitaker starts with the premise that a play in performance is a manifold mirror of the playing that constitutes our lives shaped through the interaction of received paradigms and living presences Each major paradigm Brecht s dialectical theater Synge s satirical tragicomic romance Shaw s or Stoppard s serious farce the Chekhovian community of heartbreak or Beckett s or Pinter s world of hellish confinement offers us one way of looking at and participating in the human situation But each instance of theater must flesh out and modify one or more paradigms in terms of the specific presences of playwright director actors and audiences as well as presences from the past The book stands on the borderlands between text oriented and performance oriented criticism and will have wide appeal to scholars students and theater aficionados Thomas Whitaker is an emeritus Professor of English Yale University He has written several books including *Fields of Play in Modern Drama* the book to which *Mirrors of Our Playing* is the sequel **Twentieth Century British Literature** Martin Tucker,1968 The Publishers' Trade List Annual ,1979
