Travellers and Cosmographers Joan-Pau Rubiés, 2023-06-14 Joan Pau Rubi s brings together here eleven

studies published between 1991 and 2005 that illuminate the impact of travel writing on the transformation of early modern European culture. The new worlds that European navigation opened up at the turn of the 16th century elicited a great deal of curiosity and were the subject of a vast range of writings, much of them with an empirical basis albeit often subtly fictionalized. In the context of intense literary and intellectual activity that characterized the Renaissance, the encounters generated by European colonial activities in fact produced a remarkable variety of images of human diversity. Some of these images were conditioned by the actual dynamics of cross-cultural encounters overseas, but many others were elaborated in Europe by cosmographers, historians, and philosophers pursuing their own moral and political agendas. As the studies included here show, the combined effect was in the long term dramatic, interacting with the impact of humanism and of insurmountable religious divisions, travel writing decisively contributed to the transformation of European culture towards the concerns of the Enlightenment. The essays illuminate this process through a combination of general discussions and the contextual analysis of particular texts and debates, ranging from the earliest ethnographies produced by merchants travelling to Asia with Vasco da Gama to the writings of Jesuit missionaries researching idolatry in India and China or thinkers like Hugo Grotius seeking to explain the origin of the American Indians.

Kashmir Imbroglio M. G. Chitkara, 1996 Asia Past and Present Peter P. Wan, Thomas D. Reins, 2021-02-17

A wide-ranging introduction to the multi-faceted history of Asia from early origins to the present. *Asia Past and Present* is an expansive survey of the social, political, and economic history of the continent from the Paleolithic era to the early 21st century. As there is no physically discrete continent, rather an arbitrary division of the Eurasian landmass, this book focuses on terrain that encompasses India, Pakistan, Afghanistan, Central Asia, China, Korea, Japan, Mongolia, the Russian Far East, and Southeast Asia, the area which most modern scholars identify as Asia. Offering broad chronological and topical coverage of Asia, this book examines subjects including written languages, religions, and philosophies, concepts of monarchy, militarism, independence, and nation building, and more. Particular focus is placed on the varying levels of influence the core cultures of India and China have had on the continent in a multitude of socio-political areas. Historical dialogues of how colonies, later emerging nations, blended traditional Asian culture and Western political and economic models of modernization complement contemporary discussions of globalization, nuclear tensions, and growing demands for greater individual freedom. Written in an engaging, accessible style, this book covers a wide range of topics, perspectives, geographic regions, and time periods. Highlights India and China as the pre-19th century cultural cores of Asia. Presents a relatable political, cultural narrative.

framework Discusses contemporary themes including gender sexual orientation the environment and Western and Islamic influence on Asian culture Includes coverage of commonly underrepresented regions such as the Himalayan nations Maldives and New Guinea Asia Past and Present A Brief History is a valuable resource for undergraduate courses where Asian cultures are introduced and in courses on Asian politics diplomacy environmental issues and socio economics
