Levine,2024-05-31 Greater Ethiopia combines history anthropology and sociology to answer two major questions Why did Ethiopia remain independent under the onslaught of European expansionism while other African political entities were colonized And why must Ethiopia be considered a single cultural region despite its political religious and linguistic diversity Donald Levine's interdisciplinary study makes a substantial contribution both to Ethiopian interpretive history and to sociological analysis In his new preface Levine examines Ethiopia since the overthrow of the monarchy in the 1970s Ethiopian scholarship is in Professor Levine's debt He has performed an important task with panache urbanity and learning Edward Ullendorff Times Literary Supplement Upon rereading this book it strikes the reader how broad in scope how innovative in approach and how stimulating in arguments this book was when it came out In the past twenty years it has inspired anthropological and historical research stimulated theoretical debate about Ethiopia's cultural and historical development and given the impetus to modern political thinking about the complexities and challenges of Ethiopia as a country The text thus easily remains an absolute must for any Ethiopianist scholar to read and digest J Abbink Journal of Modern African Studies Ideology, Power and Prehistory Theoretical Archaeology Group (England). Conference,1984-05-03 This book starts from the premise that methodology has always dominated archaeology to the detriment of broader social theory **Objections to Evolution** Nirushan Sivanesan,2023-05-11 The theory of evolution

as proposed by Charles Darwin in 1859 has been plagued by controversy and criticisms since its inception But in the Western world at least the fight seems to be almost over with evolution being seen by many as a sealed deal The theory has made its way into science textbooks and has firmly lodged itself there Could this be the biggest mistake the scientific community has ever made *Objections to Evolution* addresses this question It reexamines the evidence for evolution and brings forth a new case against it from a nonreligious perspective This case contains completely unique and thought provoking ideas arguments and theories It asks and answers fundamental questions which have not been addressed previously and attempts to create a revolution in the way we think about our origins This Book Is an Action Jaime Harker,Cecilia Konchar Farr,2015-12-30

The Women s Liberation Movement held a foundational belief in the written word s power to incite social change In this new collection Jaime Harker and Cecilia Konchar Farr curate essays that reveal how second wave feminists embraced this potential with a vengeance The authors in *This Book Is an Action* investigate the dynamic print culture that emerged as the feminist movement reawakened in the late 1960s The works created by women shined a light on taboo topics and offered inspiring accounts of personal transformation Yet as the essayists reveal the texts represented something far greater a distinct and influential American literary renaissance On the one hand feminists took control of the process by building a network of publishers and distributors owned and operated by women On the other women writers threw off convention to venture into radical and experimental forms poetry and genre storytelling and in so doing created works that raised the consciousness of a generation Examining feminist print culture from its structures and systems to defining texts by Margaret Atwood and Alice Walker *This Book Is an Action* suggests untapped possibilities for the critical and aesthetic analysis of the diverse range of literary production during feminism s second wave **The People's Natural History: The living races of**

Layne,2019-01-15 In this provocative examination of collective identity in Jordan Linda Layne challenges long held Western assumptions that Arabs belong to easily recognizable corporate social groups Who is a true Jordanian Who is a true Bedouin These questions according to Layne are examples of a kind of pigeonholing that has distorted the reality of Jordanian national politics In developing an alternate approach she shows that the fluid social identities of Jordan emerge from an ongoing dialogue among tribespeople members of the intelligentsia Hashemite rulers and Western social scientists Many commentators on social identity in the Middle East limit their studies to the village level but Layne s goal is to discover how the identity building processes of the locality and of the nation condition each other She finds that the tribes create their own cultural homes through a dialogue with official nationalist rhetoric and Jordanian urbanites while King Hussein in turn maintains the idea of the homeland in many ways that are powerfully influenced by the tribespeople The identities so formed resemble the shifting irregular shapes of postmodernist landscapes but Hussein and the Jordanian people are also beginning to use a classically modernist linear narrative to describe themselves Layne maintains however that even with this change Jordanian identities
