Triumph Motor Company is known around the world for its iconic sports cars. The hugely popular TR series Spitfires and GT 6s represent the quintessential British sports car: rugged good looks were combined with performance and economy at a price everyone could afford. These sports cars are always in demand and prized by British car collectors, racers and open air motoring enthusiasts. Triumph understood the connection between competition success and sales success and was able to parlay rally and road racing wins into the best selling sports cars in the world, particularly in the United States during the 1950s and 1960s. The Works competition cars notched victories at Le Mans, Sebring, the Monte Carlo rally and many others and inspired privateers to take their cars to the track. Every model came from a bloodline of racing. Triumph historian G William Krause reviews every model in the sports car lineup. He covers the history, design, evolution and performance specifications from the first sports cars in the 1930s through the final cars built in 1981. Throughout Triumph's history a number of pivotal moments could have significantly changed the company's fortunes. This book also looks at the what if cars that never made it into production, including photos. Although they have not been built for more than three decades, their mark on sports car history is undeniable. Whether you're a fan of the spartan brutes of the 1950s or the refined comfort and performance of the last TRs, you will find the backstory of your favorites here.

Ford Cars 1945 to 1995 David Rowe, Ford cars can be found all over the world and vintage models appear at most classic car shows. This book helps to identify the models sold by Ford of Britain and provides detailed information on each model with technical specifications, original colour photographs and lists the colour schemes that were available. Continuing this popular series covering classic British cars, David Rowe now turns his keen eye to the British Ford models. He is well placed to do so, having worked at two Ford dealerships over a 30 year period and has driven many of the models covered by this book.
