Full Value Jack Richards, 2020-03-03 Your Guide to the Best Way to Sell Your Home When it comes time to sell

homeowners today face an overwhelming amount of advice on how to sell quickly and for the highest price possible. For these sellers trying to understand what actions truly matter when selling a home can feel like an impossible task. And selling a home the wrong way can result in sellers losing out on thousands of dollars of potential financial gain. Fortunately, research has shown how taking a few select actions can make a significant difference in the sale price of the home, a difference worth 5% or even 10% of the value of the home.

Full Value real estate agent management consultant and strategy expert Jack Richards shows homeowners, real estate agents, and investors how to identify and showcase sources of value in residential property. Drawing insights from academic and industry studies, *Full Value* provides homeowners with practical, fact-based advice on how to sell their homes for maximum value. The value-enhancing strategies in this book will show you how to sell your home at a higher price and for greater profit than would be possible otherwise.

Retail Disruptors Jan-Benedict Steenkamp, Laurens Slood, 2018-10-03 The rise of hard discounters like Aldi and Lidl has been monumental. Explore the very real threat they pose to traditional retailers and brand manufacturers and what you can learn from their growth. Hard discounters are stores that sell a limited selection of consumer packaged goods and perishables, typically fewer than 2,000 Stock Keeping Units, for prices that are usually 50-60% lower than national brands. The best-known hard discounters are Aldi and Lidl, but global brands include Trader Joe's, EuroSpin, Biedronka, Netto, and Leader Price. Their rise has been monumental; they have irrevocably changed the face of retail in Europe and Australia and are making steady inroads into the US. *Retail Disruptors* is the first book that explores this upheaval, providing expert insight into the business models of the leading hard discounters and what mainstream retailers and brand manufacturers can do to remain competitive in the face of disruption. Meticulously researched by two of the leading authorities in retail strategy, private labels, branding, and hard discounting, *Retail Disruptors* is essential reading for all brand manufacturers and retailers who want to retain the competitive edge.

If You Could Live Anywhere Melody Warnick, 2022-07-26 Even when your job can be done from anywhere, the place you call home still matters a lot. By the old rules of work, your dream career determines where you live. If you want to make movies, move to Los Angeles. If you want to work in publishing, you must be in New York. And if you're launching a start-up, you'll only succeed in Silicon Valley. But with the meteoric rise of remote and freelance work, more people than ever are becoming location-independent. Even doctors, teachers, and other people in more traditional occupations have to make tough choices about where they settle, because living in the right place can still make all the difference for your success and happiness. So if work won't dictate where you live, how will you ever decide? *If You Could Live Anywhere* answers that question. Melody Warnick unpacks the big picture concerns that we often miss when we're writing pros and cons lists about potential destinations. Because the secret to being happy isn't moving; it's aligning your location with your values. You'll learn how to craft a personal location strategy that will make the most of your money, your community, and your life, with success stories from people who flexed their location independence to find homes and work they love. American Dreams, American Nightmares Daniel Horowitz, 2022-11-22 Two decades punctuated by the financial crisis of the Great Recession and the public health crisis of COVID 19 have powerfully reshaped housing in America By integrating social economic intellectual and cultural histories this illuminating work shows how powerful forces have both reflected and catalyzed shifts in the way Americans conceptualize what a house is for in an era that has laid bare the larger structures and inequities of the economy Daniel Horowitz casts an expansive net over a wide range of materials and sources He shows how journalists and anthropologists have explored the impact of global economic forces on housing while filmmakers have depicted the home as a theater where danger lurks as elites gamble with the fates of the less fortunate Real estate workshops and popular TV networks like HGTV teach home buyers how to flip or flop while online platforms like Airbnb make it possible to play house in someone else's home And as the COVID pandemic took hold many who had never imagined living out every moment at home found themselves cocooned there thanks to corporations like Amazon Zoom and Netflix

Digital Stractics Chris Outram, 2016-04-29 In the world of digital business the line between strategy and tactics is blurring Traditionally large companies would adopt strategic frameworks which planned over three to five year timescales while most digital start ups had little interest in comprehensive and rigorous strategic processes and simply set themselves vision and worked out how to get there along the way In today s digital economy even large companies are finding that their planning horizons are being measured in months rather than years or quarters if not yet in the weeks or even days of startups On the other hand investors are less swayed by the excitement of digital and expect harder and more rigorous medium term planning from start ups As a result while the empirical process of learning by doing is becoming part of traditional companies strategy processes digital pure plays are no longer just making it up as they go along but actively learning and changing as they go along In short on the battlefield of online commerce strategy blends with tactics Indeed the distinction between pure play and hybrid is increasingly redundant as more holistic business models begin to emerge Digital Stractics captures the experience and insights of some 60 entrepreneurs CEOs and chairmen of both pure plays and hybrids to formulate frameworks within which both pure plays and hybrids can shape their strategy and business models As timescales between plan and do collapse strategy and tactics have to blend The world of STRACTICS is upon us
