Matthew A. Thomas

These Are The Generations:

Generations Judith Burnett, 2016-04-15 *Generations The Time Machine in Theory and Practice* challenges the fragmented and diverse use of the concept of generation commonly found in the social sciences. It approaches the concept in a manner that stretches the sociological imagination away from its orientation toward the present by building the concept of the passage of time into our understanding of the social. It proposes an innovative and exciting view of the field of generations, lifting it out from life course and cohort analysis and reconstituting the area with fresh and dynamic ways of seeing. With its unique intellectually innovative and sustained critical study of generational work, *Generations* will appeal to scholars across a range of social sciences and humanities and will be of particular interest to social theorists and anthropologists as well as sociologists of social history, consumption, identity, and culture. These are the Generations

Matthew A. Thomas, 2013-02-20 Using a combination of formal critical and linguistic methods, the author seeks to understand the role of the toledot formula often translated "These are the generations of [Name]" in shaping the book of Genesis and the Pentateuch as a whole. An examination of the formula uncovers that it functions primarily as a heading to major sections of text and draws the reader's attention to focus on an ever narrower range of characters. By starting from the perspective of the surface structure of the text and addressing questions that investigation raises, the study is able to uncover and resolve a number of tensions within the text as well as provide insights into a number of other questions surrounding the toledot headings and the organization of the structure of the Pentateuch.
