This Book Is For You Stupid Stupid Mistakes That Cost You Sales:

This Book Is for You Stupid Mathew Koenig, 2013-01-26 If you're looking for a grammatically well written book by someone with an MBA that will put you to sleep this is the wrong book for you. However if you're looking for a book written by someone who has spent 20 years in the trenches of sales succeeding AND failing over and over so that you can learn from their efforts and improve your career READ THIS BOOK. The late great Zig Ziglar once said You can get anything you want in life if you are just willing to help enough other people get what they want. Those words have been a constant inspiration in my sales career so I want to help you get what you want. That said I believe that everyone who gets into sales really wants to be successful but most of them like me start out with little or no direction knowledge or training on how to reach that goal of success. This means that we start out stupid in our sales career. When we don't know what we're doing we look for advice from our peers but unfortunately they have little more training than we do they've just got the experience of time served so technically they're stupid too. I'm not saying it to be mean because it's not totally their fault their manager was probably stupid too and his manager probably was too. In sales too many of us have learned from those who did their best but really didn't have the knowledge talent or ability to give us what we needed to be successful so the stupid cycle just keeps going. This book will show you how to completely F K up your sales career. Hopefully this book will put a few smiles on your face while sharing real life examples of epic sales failures as well as solid practices for how to Stop the Stupid. Why Do Smart People Make Such Stupid Mistakes? Chris Merrington, 2011 Are you paid what you deserve by your clients? Learn to negotiate with your clients more profitably. This book will save you a fortune and maybe even make you a fortune. Its practical approach means you can apply the proven strategies in your business today. You will discover How to confidently hold your price How to say no to clients while improving your relationship How to negotiate higher fees and prices How to handle unrealistic timescales and budgets How to respond to you've got the business if you drop your price and How to prepare for meetings with Procurement. **Why Do Smart People Make Such Stupid Mistakes** is a practical negotiation guide to more profitable client relationships for marketing and communication agencies sales teams and professional service people. **Pu Latin America 2001**, 2001-12-31 **Brotherhood of Locomotive Firemen and Enginemen's Magazine**, 1927 The Man Behind the Sale Gary Dunning, 2020-12-10 Gary Dunning leverages his decades of experience in the car business to address one of the biggest needs in the automotive retail profession integrity. As a believer in Jesus Christ his vision statement propels him to teach godly principled truths so others can walk with the Lord on their way to success. Learn how to rise above mediocre results to live an elevated life manage work time so important tasks get done first put the customer at the center of business understand the power of words in all areas of life. The author also focuses on five retail pillars that will help automotive dealerships succeed as well as how core values and principles resonate with customers. In the car business and in all of life understanding who you are what you're supposed to be what you want to be and what you do to earn a paycheck are critical.
