Treating Violence Treating Violence:

Treating Violence Rob Gore, 2024-05-07 The inspiring story of a Black doctor who was deeply affected by the violence that plagued his Brooklyn childhood and later dedicated himself to addressing trauma and violence as public health issues Rob Gore first encountered violence when he was beaten and robbed as a 10 year old it was treated as an inevitable fact of life but after another brush with violence as a teen he began to reject that prevalent attitude As he matured and became a doctor he grew in his determination to find treatments for what he saw not as an unavoidable fact for most people living in vulnerable underserved neighborhoods especially but as a public health issue that could be addressed by early intervention and solid support beginning in the medical community He also became deeply involved in efforts to diversify the entire field of medicine starting with the front lines in the Emergency Department Seeing his brother Angel and close friend Willis fall prey to the epidemic of violence with profound and in Willis s case deadly consequences Rob began seriously researching the issue and went on to found an organization which is one of the models for successful approaches to reducing violence and protecting victims who are disproportionately BIPOC living in impoverished neighborhoods or members of the LGBTQ community Here he provides not only statistics but stories of what he witnessed in NYC neighborhoods in Atlanta Chicago Buffalo and even in medical work in Haiti and Kenya His work with the Kings Against Violence Initiative KAVI and allied organizations is a blueprint for treating violence not as a police matter but as a public health crisis which can and should be addressed and substantially reduced The people he introduces us to in these pages are not merely victims but often advocates paving the way for eliminating the epidemic of violence in our country
