Davies, 2022-08-18 Strap in alongside the Sabre pilots as they experienced the world s first large scale jet vs jet combats Brought to life with innovative tactical artwork and dramatic first hand accounts from the pilots themselves The F 86A Sabre had entered USAF service in 1949 and in December 1950 three squadrons were sent to South Korea Despite primitive basing conditions and overwhelming Chinese opposition the Sabre pilots stopped communist air forces from attacking UN ground troops and allowed Allied fighter bombers to operate without threat of interception The ensuing air battles between Sabres and MiG 15s were the first since World War II and the last in recent times to involve large numbers of jet fighters in direct confrontation In all of them the victorious F 86 pilots demonstrated the superiority of their training and tactics and the outstanding qualities of their Sabres Contemporary photographs and specially commissioned artwork including a dramatic battlescene armament views technical diagrams and

ribbon diagrams illustrating step by step each main dogfight explored in the book bring the experiences of the Sabre pilots and their battle tactics vividly to life

In Turbulent Skies Peter Reese,2020-01-24 In 1945 confidence in British aviation was sky high Yet decades later the industry had not lived up to its potential What happened The years that followed the war saw the Brabazon Committee issue flawed proposals for civil aviation planning Enforced cancellations restricted the advancement of military aircraft compounded later on by Defence Minister Duncan Sandys abandoning aircraft to fixate solely on missiles Commercially Britain s small and neglected domestic market hindered the development of civilian airliners In the production of notorious aircraft the inauspicious Comet came from de Havilland s attempts to gain an edge over its American competitors The iconic Harrier jump jet and an indigenous crop of helicopters were squandered while unrealistic performance requirements brought about the cancellation of TSR2 Peter Reese explores how repeated financial crises a lack of rigour and fatal self satisfaction led British aviation to miss vital opportunities across this turbulent period in Britain s skies
