Air Corps News Letter ,1965 **Dreadful Lady over the Mekong Delta** Bob Howe,2023-04-19 Dreadful Lady over the Mekong Delta looks at the men of No 2 Squadron and the operations they flew in the Vietnam War in their

Canberra bombers From April 1967 the squadron spent four years attacking enemy targets many of them in the Mekong Delta region and contending with the politics weather and fog of war The riverine operations supported by No 2 Squadron were but a small part of an allied effort to disrupt the enemy s movement of troops and supplies to locations in South Vietnam It was according to one commentator a kind of guerrilla warfare conducted in a navy environment Bob Howe arrived in Vietnam in 1969 as a youthful Canberra navigator bomb aimer but much of his time was spent as a specialist in bombing operations His time there provided him with the firsthand experience and detailed information to write this book This book in its original format was first published in 2016 by the RAAF s Air Power Development Centre filling a gap in the recording of the RAAF s operations in Vietnam It also describes how crews overcame the difficulties of operating in an intense Asian war in an aircraft that was designed for a completely different environment This new edition is intended to bring the experiences and exploits of Bob Howe No 2 Squadron and its Canberra bomber aircraft to life for a new generation of reader *B-57 Canberra Units of the Vietnam War* T. Jacob van Staaveran, Stuart Slade, 2012-10-19 During the middle and late 1970s the United States Air Force Historical Research Center Maxwell Air Force Base Alabama produced a series of 17 monographs that detailed the history of the Vietnam War These studies were classified as being Top Secret for many years and were only recently released to the public The core of these monographs is the series that deal with the political operational and technical development of the Air Force participation in the Vietnam War These remarkable documents contain a wealth of historical data that explain the background and reasoning behind many controversial decisions This compilation has taken these monographs and assembled them into a single narrative The documents have been painstakingly remastered and reset to the printed page but their editorial integrity has been scrupulously preserved

Kontum Thomas P. McKenna, 2011-09-09 In the spring of 1972 North Vietnam invaded South Vietnam in what became known as the Easter Offensive Almost all of the American forces had already withdrawn from Vietnam except for a small group of American advisers to the South Vietnamese armed forces The 23rd ARVN Infantry Division and its American advisers were sent to defend the provincial capital of Kontum in the Central Highlands They were surrounded and attacked by three enemy divisions with heavy artillery and tanks but with the help of air power managed to successfully defend Kontum and prevent South Vietnam from being cut in half and defeated Although much has been written about the Vietnam War little of it addresses either the Easter Offensive or the Battle of Kontum In Kontum The Battle to Save South Vietnam Thomas P. McKenna fills this gap offering the only in depth account available of this violent engagement McKenna a U S infantry lieutenant colonel assigned as a military adviser to the 23rd Division participated in the battle of Kontum and combines his personal experiences with years of interviews and research from primary sources to describe the events leading up to the invasion and the battle itself Kontum sheds new light on the actions of U S advisers in combat during the Vietnam War McKenna s book is not only an essential historical resource for America s most controversial war but a personal story of valor and survival
