An Econometric Model of the US Economy John J. Heim, 2017-12-06 This book explores the US economy from 1960 to 2010 using a more Keynesian Cowles model approach which the author argues has substantial advantages over the vector autoregression VAR and dynamic stochastic general equilibrium DSGE models used almost exclusively today Heim presents a robust argument in favor of the Cowles model as an answer to the pressing unresolved methodological question of how to accurately model the macroeconomy so that policymakers can reliably use these models to assist their decision making Thirty eight behavioral equations describing determinants of variables such as consumption taxes and government spending are connected by eighteen identities to construct a comprehensive model of the real US economy that Heim then tests across four different time periods to ensure that results are consistent This comprehensive demonstration of the value of a long ignored model provides overwhelming evidence that the more Keynesian Cowles structural models outperform VAR and DSGE and therefore should be the models of choice in future macroeconomic studies

Narrowing the Development Gap in ASEAN Mark McGillivray, David Carpenter, 2013-04-12 An important part of the vision of the Association of Southeast Asian Nations ASEAN is to ensure that the benefits of development and economic integration are equitably shared by all member states and their citizens ASEAN's work therefore aims to narrow the development gap between ASEAN member states Indonesia Malaysia the Philippines Singapore Thailand Brunei Darussalam Myanmar Cambodia Laos and Vietnam and between sub regions within ASEAN Written by a team of internationally recognised experts in development economics this

book communicates the latest findings on narrowing the development gap in a practical policy relevant way in a format that can influence decision makers within ASEAN member states and international donors There have been significant development achievements in many ASEAN countries over the last 20 years but the ASEAN region continues to be characterised by significant development gaps particularly in income Gaps in development achievement are also seen at the regional and sub national levels This book offers a better understanding of development gaps as they exist in 2012 and provides important context that can inform the strategic needs of decision makers in the ASEAN region Due to improvements in conceptualising and measuring well being including through the use of multidimensional indicators this book gives policy makers and scholars in development economics development policy and Asian studies well grounded insights into the nature of the development gaps within and between ASEAN countries as well as high level policy advice on those interventions that can contribute to a narrowing of the development gap
