Humility Miguel E. Gallardo,2013-01-18 Developing Cultural Humility offers a unique look into the journeys of psychologists striving towards an integration of multiculturalism in their personal and professional lives Contributing authors representing a mix of cultural backgrounds but stereotypically identified as White engage in thoughtful dialogue with psychologists from underrepresented communities who are identified as established and respected individuals within the multicultural field The

contributing authors discuss both the challenges and rewards they experienced in their own journeys and how they continue to engage in the process of staying connected to their cultural identity and to being culturally responsive In addition psychologists who represent historically disenfranchised communities have similarly reflected on their own journey while offering commentary to the personal stories of White psychologists This text is useful for stimulating discussions about privilege power and the impact race has on either bringing people together or creating more distance whether intentionally or unintentionally It demonstrates to readers how to engage in the process of examining one's own culture in more intentional ways and discusses the implications as we move towards engaging in more dialogue around multicultural issues

Racial Identity Theory Chalmer E. Thompson, Robert T. Carter, 2013-04-15 Racial identity theories have been in the psychological literature for nearly thirty years Unlike most references to racial identity however Thompson and Carter demonstrate the value of integrating RACE and IDENTITY as systematic components of human functioning The editors and their contributors show how the infusion of racial identity theory with other psychological models can successfully yield more holistic considerations of client functioning and well being Fully respecting the mutual influence of personal and environmental factors to explanations of individual and group functioning they apply complex theoretical notions to real life cases in psychological practice These authors contend that race is a pervasive and formidable force in society that affects the development and functioning of individuals and groups In a recursive fashion individuals and groups influence and indeed nurture the notion of

race and societal racism Arguing that mental health practitioners are in key influential positions to pierce this cycle the authors provide evidence of how meaningful change can occur when racial identity theory is integrated into interventions that attempt to diminish the distress people experience in their lives The interventions illustrated in this volume are applied in various contexts including psychotherapy and counseling supervision family therapy support groups and organizational and institutional environments This book can serve the needs and interests of advanced level students and professionals in all mental health fields as well as researchers and scholars in such disciplines as organizational management and forensic psychology It can also be of value to anyone interested in the systematic implementation of strategies to overcome problems of race
