USN Submarine vs IJN Aircraft Carrier Mark Lardas, 2025-01-16 Fully illustrated this book pits US Navy submarines against the aircraft carriers of the Imperial Japanese Navy at the height of World War II Before World War II the world's navies envisioned the submarine as a tool to hunt and kill cruisers and capital ships aircraft carriers and battleships Instead they became best known for their abilities as commerce raiders Yet hunting capital ships remained an important auxiliary role for the US submarine force in World War II Featuring specially commissioned artwork and mapping alongside carefully chosen archive illustrations this absorbing study focuses on five revealing battles between US submarines and Japanese aircraft carriers during 1942-44 At first a combination of factors bad torpedoes poor US tactics and plain bad luck foiled every US submarine attack on a Japanese capital ship in 1942 and 1943 But over the space of six months in 1944 from June through November of that year US submarines sank three of Japan's largest aircraft carriers as well as a battleship Thereafter Japanese capital ships clung to port or sheltered waters beyond the reach of submarines In this book Mark Lardas explains how the technologies and procedures employed by both sides helped to determine the victor in five revealing clashes from the battle of Midway in June 1942 to the sinking of Shinano the largest warship sunk by a submarine in

November 1944 USN Battleship vs IJN Battleship Mark Stille, 2017-11-30 In the build up to World War II both the United States and Japan believed their battleships would play a central role in battle but after the Pacific War began in December 1941 the role of the battleship proved to be much more limited than either side expected There would be only two battleship vs battleship actions in the Pacific in World War II both of which are assessed in this engaging study At Guadalcanal in 1942 Kirishima faced two modern US battleships USS Washington and USS South Dakota In the Surigao Strait in 1944 two World War I era Japanese battleships Yamashiro and Fuso faced six American battleships supported by four heavy cruisers in history's last ever clash between battleships Employing full colour artwork carefully selected archive photographs and expert analysis former US Navy Commander Mark E Stille examines the two head to head clashes between the battleships deployed by the United States and Japan in the struggle for control of the Pacific during World War II Santa Cruz 1942 Mark Stille, 2012-09-20 A highly illustrated account of the fourth major carrier battle of the war in the Pacific Despite myth the Japanese carrier force was not destroyed at Midway but survived to still prove a threat in the Pacific Theater Nowhere was this clearer than in the battle of Santa Cruz of October 1942 The stalemate on the ground in the Guadalcanal campaign led to the major naval forces of both belligerents becoming inexorably more and more involved in the fighting each seeking to win the major victory that would open the way for a breakthrough on land as well The Japanese were able to gain a tactical victory at Santa Cruz and came very close to scoring a strategic victory but they paid a very high price in aircraft and aircrew that prevented them from following up their victory In terms of their invaluable aircrew the battle was much more costly than even Midway and had a serious impact on the ability of the Japanese to carry out carrier warfare in a meaningful manner Illustrated richly throughout this volume examines the encounter at Santa Cruz and its significance **F6F Hellcat vs A6M Zero-sen** Edward M. Young, 2014-08-20 A fully illustrated study pitting together the superb Mitsubishi A6M Zero sen the world's finest carrier fighter in 1942 and the heavyweight F6F Hellcat The Grumman F6F Hellcat and Mitsubishi A6M Zero sen were the two principal opposing fighters in the brutal aerial clashes of the Pacific War from 1943 onwards Reminiscent of the preceding F4F Wildcat the F6F Hellcat was designed specifically to counter the earlier A6M2 Zero sen the strengths and weaknesses of which became fully understood by US designers after an undamaged example was recovered in the Aleutians The powerful Hellcat had an impressive top speed rate of climb and armament and it retained its predecessor's incredible ruggedness The A6M5 Zero sen was also born out of an earlier type but was intended merely as a stop gap until more modern Japanese fighters could be produced to restore performance parity with Allied aircraft The chaotic conditions of the Japanese Aircraft industry and war economy prevented new types from being built Featuring detailed artwork illustrating the technical specifications of these two types and the dramatic encounters between them this volume focuses on how these iconic fighters came into being and how they fared as they faced one another over the Pacific skies of World War II F4F Wildcat vs A6M Zero-sen Edward M. Young, 2013-08-20 The Grumman F4F Wildcat and the Mitsubishi A6M Zero sen were

contemporaries although designed to very different requirements The Wildcat ruggedly built to survive the rigors of carrier operations was the best carrier fighter the US Navy had available when the USA entered World War II and it remained the principal fighter for the US Navy and the US Marine Corps until 1942 43 With a speed greater than 300mph exceptional manoeuvrability long range and an impressive armament the slick Zero sen could out perform any Allied fighter in 1941 42 The battles between the Wildcat and the Zero sen during 1942 represent a classic duel in which pilots flying a nominally inferior fighter successfully developed air combat tactics that negated the strengths of their opponent *The Coral Sea* 1942 Mark Stille,2012-06-20 A detailed account of the first check of Japanese naval expansion in the Pacific The Battle of the Coral Sea is unique in the annals of naval history It is the first battle in which enemy fleets never came within sight of one another Instead aircraft launched from carrier decks were sent out to attack the enemy with bombs and torpedoes In May of 1942 the Japanese fleet moved on Port Moresby the last Allied base between Australia and Japan Forced to respond the Americans sent two aircraft carriers to protect the base In the ensuing battle one American carrier was destroyed and the other severely damaged However the Japanese also lost a carrier and decided to withdraw Although bloody it proved to be an important strategic victory for the Allies as the Japanese were forced to attempt future attacks on Port Moresby over land Using updated research and numerous period photographs retired USN Commander Mark O Stille tells the story of this important and unique battle in the Pacific War Midway 1942 Mark Stille,2012-06-20 The most important and dramatic carrier battle of World War II which completely changed the fortunes of both Japan and America In less than one day the might of the Imperial Japanese Navy was destroyed and four of her great aircraft carriers sank burning into the dark depths of the Pacific Utilizing the latest research and detailed combat maps this book tells the dramatic story of the Japanese assault on Midway Island and the American ambush that changed the face of the Pacific war With sections on commanders opposing forces and a blow by blow account of the action this volume gives a complete understanding of the strategy the tactics and the human drama that made up the Midway campaign and its place as the turning point in the Pacific war **The naval battles for Guadalcanal 1942** Mark Stille,2013-05-20 The battle for Guadalcanal that lasted from August 1942 to February 1943 was the first major American counteroffensive against the Japanese in the Pacific The battle of Savo Island on the night of 9 August 1942 saw the Japanese inflict a sever defeat on the Allied force driving them away from Guadalcanal and leaving the just landed marines in a perilously exposed position This was the start of a series of night battles that culminated in the First and Second battles of Guadalcanal fought on the nights of 13 and 15 November One further major naval action followed the battle of Tassafaronga on 30 November 1942 when the US Navy once again suffered a severe defeat but this time it was too late to alter the course of the battle as the Japanese evacuated Guadalcanal in early February 1943 This title will detail the contrasting fortunes experienced by both sides over the intense course of naval battles around the island throughout the second half of 1942 that did so much to turn the tide in the Pacific **Tropical Warfare in the Asia-Pacific Region,**

1941-45 Kaushik Roy, 2017-10-25 This is the first book to provide a comprehensive overview of the land war during the Second World War in South East Asia and the South and South West Pacific The extensive existing literature focuses on particular armies Japanese British American Australian or Indian and or on particular theatres the Philippines Papua New Guinea Malaya or Burma This book on the contrary argues that warfare in all the theatres was very similar especially the difficulties of the undeveloped terrain and that there was considerable interchange of ideas between the allied armies which enabled the spread of best practice among them The book considers tactics training technology and logistics assesses the changing state of the combat effectiveness of the different armies and traces the course of the war from the Japanese Blitzkrieg of 1941 through the later stalemate and the hard fought Allied fightback Although the book concentrates on ground forces due attention is also given to air forces and amphibious operations One important argument put forward by the author is that the defeat of the Japanese was not inevitable and that it was brought about by chance and considerable tactical ingenuity on the part of US and British imperial forces *MacArthur's Papua New Guinea Offensive, 1942-1943* Jon Diamond, 2020-05-27 The Japanese seizure of Rabaul on New Britain in January 1942 directly threatened Northern Australia and as a result General Douglas MacArthur took command of the Southwest Pacific Area In July 1942 the Japanese attacked south across the Owen Stanley mountain range Thanks to the hasty deployment of Australian militiamen and veteran Imperial Force troops the Japanese were halted at Ioribaiwa Ridge just 27 miles from Port Moresby MacArthur's priority was to regain Northeast New Guinea and New Britain The capture of airfields at Buna and reoccupation of Gona and Sanananda Point were prerequisites The Allied offensive opened on 16 November 1942 with Australian infantrymen and light tanks alongside the US 32nd Infantry Division Overcoming the Japanese and the inhospitable terrain in tropical conditions proved the toughest of challenges It remains an achievement of the highest order that the campaign ended successfully on 22 January 1943 This account with its clear text and superb imagery is a worthy tribute to those who fought and all too often died there **The Oxford Guide to World War II** Ian Dear, Michael Richard Daniell Foot, 2007 First published in 1995 as *The Oxford companion to the Second World War* Verso *Oxford Companion to World War II* Ian Dear, M. R. D. Foot, 2001-10-25 This text is an authoritative reference work covering a wide breadth of topics on all things associated with World War II Entries cover topics such as strategy politics weapons tactics logistics economics and society **USN Cruiser vs IJN Cruiser** Mark Stille, 2012-01-20 Although the war in the Pacific is usually considered a carrier war it was the cruisers that dominated the early fighting This thrilling duel presents the cruiser clashes during the battles for Guadalcanal highlighting the Battle of Savo Island and the Battle of Cape Esperance The first was a Japanese victory that resulted in the loss of four Allied cruisers However in the latter the Americans managed to turn the tables despite the battle being fought throughout the night This book presents a view of the design and development of the opposing weapons systems illustrated with newly commissioned digital artwork It uses firsthand accounts to bring the battles to life and explain why the Americans

suffered early on but eventually had their revenge **Letadlové lodě USA vs letadlové lodě Japonska** Mark Stille,2009

Nakajima B5N 'Kate' and B6N 'Jill' Units Mark Chambers,Tony Holmes,2017-06-29 Entering service during the Sino Japanese War the Nakajima B5N code named Kate excelled and went on to achieve surprising and dramatic successes in the Japanese attack on Pearl Harbor It also contributed to the sinking of the US aircraft carriers USS Lexington at the Battle of the Coral Sea USS Yorktown at the Battle of Midway and USS Hornet at the Battle of the Santa Cruz Islands Its replacement the Nakajima B6N Jill while a marked improvement over its illustrious predecessor was never able to achieve its full potential in combat due to advances in Allied aircraft finding itself relegated to the dreaded Kamikaze strikes in the latter part of the war Using previously unpublished photographs as well as colour illustrations this book will cover the history of the Kate and Jill torpedo attack bombers including their design and development as well as the combat highs and lows of the Imperial Japanese Navy's premier torpedo bombers Atlas of World War II Stephen G. Hyslop,2018 Prelude to war

Russian Battleship Vs Japanese Battleship Robert Forczyk,2009-02-17 The first major clash between a European and Asian state in the modern era signalled the beginning of Japan's rise as a major power on the world stage What began as differing expansionist interests in Manchuria and Korea developed into a full blown war in 1904 with an unexpected outcome Watched by the rest of the world's superpowers this incredibly violent war was disastrous for the Russians who despite their superior numbers were defeated by the Japanese underdogs in a spectacular fashion Japan won major victories against the Russians including the critical naval battle of Tsushima in May 1905 which saw almost the entire Russian fleet sunk captured or interned This was the first and last encounter of pre dreadnought battleships and it was

a huge success for Japanese tactics skill and planning This book discusses the design and development of the pre dreadnoughts that would ultimately lead to a new wave of battleships The key technical elements of firepower protection maneuverability and communications for each side are covered in detail and accompanied by first hand accounts and specially commissioned artwork to explain and illustrate this historically significant duel
