Nine questions every actor of color should consider when tokenism is not enough Shanésia Davis, 2024-04-23
This book confronts and analyzes the systemic racism that confronts actors of color in the USA through interviews with leading performers in the nation's theatrical epicentre of Chicago. Each chapter deals with a different central question from how these actors approach roles and the obstacles that they face to the ways in which the industry can change to better enable actors of color. By bringing together these actors and sharing the ways in which they have functioned within the white theatre world we can appreciate how theatre needs to embrace their identities so that all voices are heard, understood and valued. The stories of these actors will reflect the systemic racism of the past and present with the hope of remaking the future. This is an important book for students, teachers and professionals who engage in theatre work, helping them to understand the lived experiences of actors of color through those actors' own words. **The Elements of Playwriting** Louis E. Catron, 2001-12-11 Being a playwright means more than just putting pen to paper; it means expressing a personal point of view, bringing a vision to life, developing dimensional characters, structuring a play's action, creating effective characters, creating effective dialogue and finding producers, directors and actors to bring a work to life. Catron, a respected writer, producer, director and instructor, explores these themes and more, presenting the basic principles necessary for writing a stageworthy play. By emphasizing stageworthiness, he shows how to avoid common pitfalls such as treating a play as literature or being overinfluenced by cinematic writing. Examples from classical and modern plays are included throughout as are exercises for sharpening and developing skills and practical guidelines on working with actors and directors, getting produced and published and finding an agent. *The Year 2000* Charles B. Strozier, Michael Flynn, 1997-08 A fascinating collection of predictions for the end times in the year 2000. The Year 2000 is at hand. The end of the millennium means many things to many people, but it has significance for almost everyone. A thousand years ago, monks stopped copying manuscripts and religious building projects came to a halt as panic swept Europe. Today, anxiety about global warming, government power, superviruses, even recycling is on some level rooted in the fear of irreversible cataclysm. In a landscape shadowed by racial conflict, technological upheaval, AIDS and nuclear weapons, we reasonably fear the end of history. 2000 looms large in our religious, political and cultural imagination. But while 2000 brings dread, it also raises the prospect of transformation. There is hope to be found in the apocalyptic. This panoramic volume explores how the Year 2000 operates in contemporary political discourse, from Black evangelical politics to radical right-wing rhetoric. One section is devoted specifically to apocalyptic violence, analyzing twentieth-century cults and cultural movements from David Koresh, who renamed his Waco compound Ranch Apocalypse and perished in a modern-day Armageddon, that fueled the millennialist angst of other extremist groups to environmental campaigns like Earth First that also rely on the language of violence and imminent doom in their greening of
