Waiting For Gautreaux A Story Of Segregation Housing And The Black Ghetto:

Waiting for Gautreaux Alexander Polikoff, 2007-05-11 Winner 2006 The American Lawyer Lifetime Achievement Award On his thirty ninth birthday in 1966 Alexander Polikoff a volunteer ACLU attorney and partner in a Chicago law firm met some friends to discuss a pro bono case Over lunch the four talked about the Chicago Housing Authority construction program All the new public housing it seemed was going into black neighborhoods If discrimination was prohibited in public schools wasn't it also prohibited in public housing And so began *Gautreaux v. CHA and HUD* a case that from its rocky beginnings would roll on year after year decade after decade carrying Polikoff and his colleagues to the nation's Supreme Court to face then solicitor general Robert Bork establishing precedents for suits against the discriminatory policies of local housing authorities often abetted by HUD and setting the stage for a nationwide experiment aimed at ending the concentration and racialization of poverty through public housing Sometimes Kafkaesque sometimes simply inspiring and never less than absorbing the story of *Gautreaux* told by its principal lawyer moves with ease through local and national civil rights history legal details political matters and the personal costs and rewards of a commitment to fairness equality and justice Both the memoir of a dedicated lawyer and the narrative of a tenacious pursuit of equality this story itself a critical still unfolding chapter in recent American history urges us to take an essential step in ending the racial inequality that Alexis de Toqueville prophetically named America's most formidable evil

The Chicago Freedom Movement Mary Lou Finley, Bernard LaFayette Jr., James R. Ralph Jr., Pam Smith, 2016-04-22 Six months after the Selma to Montgomery marches and just weeks after the passage of the Voting Rights Act of 1965 a group from Martin Luther King Jr.'s staff arrived in Chicago eager to apply his nonviolent approach to social change in a northern city Once there King's Southern Christian Leadership Conference SCLC joined the locally based Coordinating Council of Community Organizations CCCO to form the Chicago Freedom Movement The open housing demonstrations they organized eventually resulted in a controversial agreement with Mayor Richard J. Daley and other city leaders the fallout of which has historically led some to conclude that the movement was largely ineffective In this important volume an eminent team of scholars and activists offer an alternative assessment of the Chicago Freedom Movement's impact on race relations and social justice both in the city and across the nation Building upon recent works the contributors reexamine the movement and illuminate its lasting contributions in order to challenge conventional perceptions that have underestimated its impressive legacy

America's Urban History Lisa Krissoff Boehm, Steven Hunt Corey, 2014-10-30 The history of the American city is in many ways the history of the United States Although rural traditions have also left their impact on the country cities and urban living have been vital components of America for centuries and an understanding of the urban experience is essential to comprehending America's past *America's Urban History* is an engaging and accessible overview of the life of American cities from Native American settlements before the arrival of Europeans to the present day landscape of suburban sprawl urban renewal and a heavily

urbanized population The book provides readers with a rich chronological and thematic narrative covering themes including The role of cities in the European settlement of North America Cities and westward expansion Social reform in the industrialized cities The impact of the New Deal The growth of the suburbs The relationships between urban forms and social issues of race class and gender Covering the evolving story of the American city with depth and insight America's Urban History will be the first stop for all those seeking to explore the American urban experience **Black on the Block** Mary Pattillo, 2010-04-02 In *Black on the Block* Mary Pattillo a Newsweek Woman of the 21st Century uses the historic rise and alarming fall and equally dramatic renewal of Chicago's North Kenwood Oakland neighborhood to explore the politics of race and class in contemporary urban America There was a time when North Kenwood Oakland was plagued by gangs drugs violence and the font of poverty from which they sprang But in the late 1980s activists rose up to tackle the social problems that had plagued the area for decades *Black on the Block* tells the remarkable story of how these residents laid the groundwork for a revitalized and self consciously black neighborhood that continues to flourish today But theirs is not a tale of easy consensus and political unity and here Pattillo teases out the divergent class interests that have come to define black communities like North Kenwood Oakland She explores the often heated battles between home owners and apartment dwellers and newcomers and old timers as they clash over the social implications of gentrification Along the way Pattillo highlights the conflicted but crucial role that middle class blacks play in transforming such districts as they negotiate between established centers of white economic and political power and the needs of their less fortunate black neighbors A century from now when today's sociologists and journalists are dust and their books are too those who want to understand what the hell happened to Chicago will be finding the answer in this one Chicago Reader To see how diversity creates strange and sometimes awkward bedfellows turn to Mary Pattillo's *Black on the Block* Boston Globe [The Wiley-Blackwell Encyclopedia of Urban and Regional Studies](#) Anthony M. Orum, 2019-04-15 Provides comprehensive coverage of major topics in urban and regional studies Under the guidance of Editor in Chief Anthony Orum this definitive reference work covers central and emergent topics in the field through an examination of urban and regional conditions and variation across the world It also provides authoritative entries on the main conceptual tools used by anthropologists sociologists geographers and political scientists in the study of cities and regions Among such concepts are those of place and space geographical regions the nature of power and politics in cities urban culture and many others The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe including timely entries on Latin America Africa India and China At the same time it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today such as those of Friedmann and Sassen on global cities It also includes discussions of recent economic writings on cities and regions such as those of Richard Florida Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives Features

authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright Takes a global perspective with entries providing coverage of Latin America and Africa India and China and the US and Europe Includes biographies of central figures in urban and regional studies such as Doreen Massey Peter Hall Neil Smith and Henri Lefebvre The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies urban sociology urban geography and urban anthropology *Social Stratification* David B. Grusky, 2018-05-04 The book covers the research on economic inequality including the social construction of racial categories the uneven and stalled gender revolution and the role of new educational forms and institutions in generating both equality and inequality **A Brief History of the Subordination of African Americans in the U.S.** Alexander Polikoff, Elizabeth Lassar, 2020-02-07 This brief history presents the essential story of the subordination of African Americans in the U S captured in a 1968 cartoon by Pulitzer prize winning cartoonist John Fischetti The drawing is of a black man handcuffed to a wall with cuffs labeled White Racism The caption reads Why don't they lift themselves up by their own bootstraps like we did Bootstraps shows just how little lift up there has been and how the handcuffs of white racism have been and continue to be the cause Unique in its combination of comprehensiveness and brevity Bootstraps is written in language for the general reader yet its extensive endnotes will make it useful to both scholars and students Its succinct overview of the subordination history includes an in depth treatment of residential segregation a legacy of slavery and a central problem of our time and a response to the view that today's racial inequality is due largely to African Americans own moral and cultural failures By addressing a serious omission in the way we have educated our children the book's narration of our white racism history may make a contribution to a much needed confrontation with our racist past

Structural Racism Stephen Menendian, 2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry A must read for advocates students policymakers and
