Thus the author discusses potential contractual claims for damages arising from a loss of profits caused by a loss of reputation resulting from violations of core provisions of the chain leader's supplier code of conduct pursuant to English law. As international supply chain disputes usually involve more than two parties and international arbitration is the ideal means for the resolution of these disputes, the book compares the arbitration rules for consolidations and joinders of some of the most significant international arbitration institutions: SIAC, ICC, AIAC, ICDR, VIAC, CIETAC, and HKIAC. The book is directed at legal practitioners, legislators of various jurisdictions, board members of corporations, ethics and compliance officers, academics, researchers, and students. It is the author's main goal that the book serves as an inspirational source for the establishment or the improvement of a corporate ethics and CSR system, preventing window dressing and greenwashing and covering the entire supply chain. Furthermore, it is intended that students develop a deeper understanding for the enforcement of corporate ethics and CSR policies.

Practitioner's Guide to Project-based Vouchers Sarah Molseed,Julie S. McGovern,2018 The Project Based Voucher PBV 1 program is a relatively small project based housing assistance program funded by the Department of Housing and Urban Development HUD and administered by public housing authorities PHAs and was the subject of the Beginner s Guide to Project Based Vouchers published in 2015 the predecessor to this publication This important subsidy program allows PHAs and owners of private multifamily properties to commit subsidy to particular units in order to preserve the long term affordability of those units Currently it is the only program within HUD that provides for the creation of new subsidized units rather than the preservation of existing subsidy Since the original publication of the Beginner s Guide the PBV program has seen significant changes and expansions through continued use of the Rental Assistance Demonstration RAD program and the enactment of the Housing Opportunities Through Modernization Act of 2016 HOTMA As of December 31 2017 HUD reported 122 867 project based vouchers or certificates nationally including approximately 50 182 units converted under RAD This represents a 34 percent growth in the program since the publication of the Beginner s Guide With the expansion of the program under HOTMA as discussed in Section III A and expanded conversion of public housing units to PBVs under RAD it is likely that this pace of expansion will keep pace and that PBVs will continue to be a vital development and affordable housing tool in the years to come The Practitioner s Guide updates and expands the Beginner s Guide and provide additional information about the PBV program and its uses As with the Beginner s Guide the Practitioner s Guide helps readers gain a basic understanding of the program and the associated thicket of regulations and processes with particular attention to the updates and expansions made to the program under HOTMA
