plan that had a 1 000 deductible When they could have paid 3 000 less for the Bronze plan that had a 2 500 deductible Dr Wacasey takes you with him as he goes shopping for his own health insurance and with his Equation proves to you in ten different examples straight from healthcare gov that when it comes to health insurance plans the Bronze is almost always the best choice He also provides a fascinating look at the history of how the health insurance industry took over our health care system what that takeover did to the prices of health care and how much health care really costs With the average health insurance deductible in the thousands of dollars the managed care era is officially over so it s time for Americans to rethink how we buy health care Individuals businesses and anyone else who pays for health insurance or health care will find Dr Wacasey s book invaluable as he shows how you can save lots of money yet receive better care than ever before in the first truly consumer driven health care system our country has ever known [Open Enrollment Guide, Plan Year 2003 Nevada.
