American Book Publishing Record ,1995 **The Conservative Futurist** James Pethokoukis, 2023-10-03 Discover the surprising case for how conservatism can help us achieve the epic sci fi future we were promised America was once the world s dream factory We turned imagination into reality from curing polio to landing on the Moon to creating the internet And we were confident that more wonders lay just over the horizon clean and infinite energy a cure for cancer computers and robots as humanity s great helpers and space colonies Also of course flying cars Science fiction from The Jetsons to Star Trek would become fact But as we moved into the late 20th century we grew cautious even cynical about what the future held and our ability to shape it Too many of us saw only the threats from rapid change The year 2023 marks the 50th anniversary of the start of the Great Downshift in technological progress and economic growth followed by decades of economic stagnation downsized dreams and a popular culture fixated on catastrophe AI that will take all our jobs if it doesn t kill us first nuclear war climate chaos plague and the zombie apocalypse We are now at risk of another half century of making the same mistakes and pushing a pro progress future into the realm of impossibility But American Enterprise Institute AEI economic policy expert and long time CNBC contributor James Pethokoukis argues that there s still hope We can absolutely turn things around if we the people choose to dream and act How dare we delay or fail to deliver for ourselves and our children With groundbreaking ideas and sharp analysis Pethokoukis provides a detailed roadmap to a fantastic future filled with incredible progress and prosperity that is both optimistic and realistic Through an exploration of culture

economics and history The Conservative Futurist tells the fascinating story of what went wrong in the past and what we need to do today to finally get it right Using the latest economic research and policy analysis as well as insights from top economists historians and technologists Pethokoukis reveals that the failed futuristic visions of the past were totally possible And they still are If America is to fully recover from the COVID 19 pandemic take full advantage of emerging tech from generative AI to CRISPR to reusable rockets and launch itself into a shining tomorrow it must again become a fully risk taking future oriented society It s time for America to embrace the future confidently act boldly and take that giant leap forward
