Horak,2019-05-01 In the 1920s Los Angeles enjoyed a buoyant homegrown Spanish language culture comprised of local and

itinerant stock companies that produced zarzuelas stage plays and variety acts After the introduction of sound films Spanish

language cinema thrived in the city s downtown theatres screening throughout the 1930s 1940s and 1950s in venues such as

the Teatro El ctrico the California the Roosevelt the Mason the Azteca the Million Dollar and the Mayan Theater among

others With the emergence and growth of Mexican and Argentine sound cinema in the early to mid 1930s downtown Los

Angeles quickly became the undisputed capital of Latin American cinema culture in the United States Meanwhile the advent

of talkies resulted in the Hollywood studios hiring local and international talent from Latin America and Spain for the

production of films in Spanish Parallel with these productions a series of Spanish language films were financed by

independent producers As a result Los Angeles can be viewed as the most important hub in the United States for the

production distribution and exhibition of films made in Spanish for Latin American audiences In April 2017 the International

Federation of Film Archives organized a symposium Hollywood Goes Latin Spanish Language Cinema in Los Angeles which

brought together scholars and film archivists from all of Latin America Spain and the United States to discuss the many issues surrounding the creation of Hollywood's Cine Hispano The papers presented in this two day symposium are collected and revised here This is a joint publication of FIAF and UCLA Film Television Archive The Projection of Britain James G. Victims and Criminal Justice Pamela Cox, Robert Shoemaker, Heather Shore, 2023-08-15 Victims and Criminal Justice is the first study of its kind to examine both the origins and impacts of key legal procedural and institutional changes introduced in England and Wales to encourage and govern prosecution It sets out how crime victims experiences of and engagement with the process of criminal justice changed dramatically between the late seventeenth and late twentieth centuries Where victims once drove the English criminal justice system bringing prosecutions as complainants and prosecutors giving evidence as witnesses putting up personal rewards for the recovery of lost goods or claim rewards for securing convictions by the end of this period victims had been firmly displaced as the state took virtually full responsibility for the process of prosecution Combining qualitative analysis of a range of textual sources with quantitative analysis of large datasets featuring over 200 000 criminal prosecutions the authors explore how victims were defined in law what the law allowed and encouraged them to do who they were in social and economic terms how they participated in the criminal justice system why many were unwilling or unable to engage in that system and why some campaigned for specific rights In exploring the shift in victim participation in criminal trials Victims and Criminal Justice places current policy debates in a much needed critical historical context Descriptive Catalogue of the Documents Relating to the History of the United
