Using Math to Defeat the Enemy President Jeffrey Strickland, 2011 Simulation Conceptual Modeling Jeffrey Strickland, 2011-10-27 Simulation Conceptual Modeling explores several system analysis methods and conceptual modeling techniques It also discusses appropriate tools that may be used to assist with conceptual modeling In addition it discusses how to evaluate the quality of a conceptual model Some commonly used conceptual modeling techniques and methods include Data Flow Modeling Entity Relationship Modeling Event Drive Process Chain Joint Application Development Place Transition Net Modeling State Transition Modeling Object Role Modeling and Unified Modeling Language UML

Predictive Analytics using R Jeffrey Strickland, 2015-01-16 This book is about predictive analytics Yet each chapter could easily be handled by an entire volume of its own So one might think of this a survey of predictive modeling A predictive model is a statistical model or machine learning model used to predict future behavior based on past behavior In order to use this book one should have a basic understanding of mathematical statistics it is an advanced book Some theoretical foundations are laid out but not proven but references are provided for additional coverage Every chapter culminates in an example using R R is a free software environment for statistical computing and graphics You may download R from a preferred CRAN mirror at <http://www.r-project.org> The book is organized so that statistical models are presented first hopefully in a logical order followed by machine learning models and then applications uplift modeling and time series One could use this a textbook with problem solving in R but there are no by hand exercises **To Watch Over Them Day and Night**

Jeffrey Strickland, 2017-04-09 I have been behind enemy lines Once in a city in the middle of East Germany Berlin was divided by a wall that to cross meant certain death Now it is one thing to be behind enemy lines but to live there is another matter Working behind enemy lines at least brings the hope of returning to friendly territory or overcoming the enemy completely But the world we live in even in America we are smack dead center of enemy territory and the enemy isn't going anywhere at least not until the Lord comes back and kicks Lucifer's tail That's right when your Christian children are at home school daycare or VBS they are in enemy territory belonging to Lucifer But Israel was in the same boat especially after Nehemiah returned to rebuild the destroyed vulnerable city of Jerusalem And they all plotted together to come and fight against Jerusalem and to cause confusion in it And we prayed to our God and set a guard as a protection against them day and night Nehemiah 4:7-9 Now we set a guard Data Analytics Using Open-Source Tools Jeffrey Strickland, 2016-07 This book is about using open source tools in data analytics The book covers several subjects including descriptive and predictive modeling gradient boosting cluster modeling logistic regression and artificial neural networks among other topics

Predictive Crime Analysis using R Jeffrey Strickland, 2019-02-14 Predictive Crime Analysis using R is Dr Strickland's second crime analysis book In this volume rather than using data to describe crime history he uses it to predict crime using pattern created with advanced clustering methods crime series linkage and text analysis Coverage includes prediction of

conventional crime and terrorist attacks The open source software R is introduced and used in developing crime data including Geo spatial data and constructing predictive models and performing post analysis Using actual crime data from cities like Atlanta Dr Strickland also shows how to simulate additional data from actual data Simulated data can then be used in cities with insufficient actual data but with similar demographics and human behavior

Introduction to Crime Analysis and Mapping Jeffrey Strickland, 2014-05-15 Crime analysis is both a profession and a set of techniques The professionals who perform crime analysis and the techniques they use are dedicated to helping a police department become more effective through better information Crime mapping is used by analysts in law enforcement agencies to map visualize and analyze crime incident patterns It is a key component of crime analysis and the CompStat policing strategy Mapping crime using Geographic Information Systems GIS allows crime analysts to identify crime hot spots along with other trends and patterns This book focuses mostly on crime analysis mapping but includes a discussion of predictive modeling a special handling of modeling terrorism and appendices which include a review

of probability and statistics and possible board questions The book is not intended to be all inclusive nor does it handle the subjects in depth Rather it is more of a survey of a few crime analysis topics that are dealt with more rigorously by other authors

Quantum Faith Jeffrey Strickland, 2011-09-13 Typically scientist try to either prove or disprove Scripture as it relates the Creation story then write books about their findings Quantum Faith is not one of those books Instead the author accepts the Word of God a priori Quantum Faith is a journey through elementary quantum mechanics chaos theory number theory and more This is also a journey through the author's faith and what he has discovered about science through it his faith has been unshaken by science and mathematics Quantum Faith examines the Creation account using the results to support what scientists have discovered about the universe Their discoveries were already contained in the Bible Quantum Faith portrays God as perfect His creation perfect in every regard Imperfection was introduced by the Fall of Man God is all powerful all knowing transcends time space and our understanding God is order and you will find that chaos contains unobservable order Quantum Faith will make you think It may change your life

Weird Scientists – the Creators of

Quantum Physics Jeffrey Strickland, 2011-09-04 Weird Scientists is a sequel to Men of Manhattan As I wrote the latter about the nuclear physicists who brought in the era of nuclear power quantum mechanics or quantum physics was unavoidable Many of the contributors to the science of splitting the atom were also contributors to quantum mechanics Atomic physics particle physics quantum physics and even relativity are all interrelated This book is about the men and women who established the science that shook the foundations of classical physics removed determinism from measurement and created alternative worlds of reality The book introduces fundamental concepts of quantum mechanics roughly in the order they were discovered as a launching point for describing the scientist and the work that brought forth the concepts

Data Science and Analytics for Ordinary People Jeffrey Strickland, 2015-06-28 Data Science and Analytics for Ordinary People is a collection of blogs I have written on LinkedIn over the past year As I continue to perform big data analytics I continue to discover not only my weaknesses in communicating the information but new insights into using the information obtained from analytics and communicating it These are the kinds of things I blog about and are contained herein Data science and analytics have been used as synonyms on occasion In reality data science includes data modeling data mining data analysis database architecture and so on Analytics is what we do to make sense of the data That is we take data and turn it into information for business decision makers This our course implies that we translate our data science jargon into English

LinkedIn Memoirs Jeffrey Strickland, 2014-11-30 LinkedIn operates the world's largest professional network on the Internet with more than 332 million members in over 200 countries and territories Dr Strickland been a LinkedIn Premium member since November 2 2010 At the time of this publication he has 4 250 followers who view his posts on a regular basis This book is a collection of his most popular post for the year 2014 I have posted articles on a variety of topics usually something I am quite passionate about like professionalism etiquette analytical science leadership and so on Post
