Destroyers At Sea Stone,2005-08-01 Explores The Lightly Armored U S Navy Destroyers That Can Hunt Submarines And Are Equipped To Attack Or Defend Against Warships Aircraft Mines And Onshore Threats **DD 891** John G.

Denham,2007-05-18 DD 891 Captain John G Denham USN Retired There was no DD891 The Martin DD891 is a mythical Gearing class destroyer that represents nearly all of the long hull Sumner class destroyers completed as Gearings the last wartime designed tin cans Although 152 were originally ordered only 98 were built and most were completed after WWII The officers and enlisted personnel assigned to the Gearing class destroyers were impressed with the living and working spaces and the arrangement of the modern equipment installed With an allowance of a dozen officers and over 300 in the crew operational capability and working conditions were improved as was the hotel support features for all on board The chiefs were still forward and the snipes were aft no change New constructions drew the best people and therefore the original crew of the Martin DD891 consisted of experienced leaders and qualified petty officers in all key position As time passed change was the only constant factor The demands of naval operations required that the 25 hour day remain routine in destroyers USS meant underway Saturday and Sunday For 30 years the Martin aged and survived with competent leadership and dedicated crews DD891 is not just about a ship but its people and the families that support those who chose the Navy and its life The Martin was a unit in a four ship destroyer division that was part of a squadron in a flotilla that made up the Pacific fleet destroyer force As each crew member is a part of a team each destroyer is part of a mission oriented task organization and must be ready when needed and prepared to function when called The Martin and her people successfully fulfilled many missions for 30 years The Martin as were her cohorts was commissioned to keep the peace therefore the officers and men spent the majority of their time deterring those enemies threatening that objective From beginning to end Ready was the Martin s motto The main characters are real except for the names The events and times are factual as are most of the scenarios however some spice humor and embellishment was added to preserve relevance US Navy Destroyer Escorts of World War II Mark Lardas,2020-11-26 The Destroyer Escort was the smallest ocean going escort built for the United States

Navy a downsized destroyer with less speed fewer guns and fewer torpedoes than its big brother the fleet destroyer Destroyer escorts first went into production because the Royal Navy needed an escort warship which was larger than a corvette but which could be built faster than a destroyer Lacking the shipyards to build these types of ships in Britain they ordered them in the US Once the US unexpectedly entered World War II its navy suddenly also needed more escort warships even warships less capable than destroyers and the destroyer escort was reluctantly picked to fill the gap Despite the Navy's initial reservations these ships did yeoman service during World War II fighting in both the Atlantic and Pacific taking on both U boat and Japanese submarines and serving as the early warning pickets against kamikazes later in the war They also participated in such dramatic actions as the Battle of Samar where a group of destroyers and destroyer escorts fought Japanese battleships and cruisers to protect the escort carriers they were shielding and the capture of the U 505 the only major naval vessel captured at sea by the US Navy The destroyer escorts soldiered on after World War II in both the United States Navy and a large number of navies throughout the world with several serving into the twenty first century This book tells the full story of these plucky ships from their design and development to their service around the world complete with stunning illustrations and contemporary photographs

An illustrated history of the long Cold War careers of the US Navy's last gun destroyers from the modernized World War II era Fletcher class to the Forrest Sherman class The finest American destroyers of World War II had surprisingly long careers into the Cold War and the missile age The 175 strong Fletcher class was the largest class of US Navy destroyers ever built and most received some modernization after World War II A handful were converted into ASW Anti Submarine Warfare escorts and one was even converted into the US Navy's first guided missile destroyer Many Sumner class destroyers were also kept in service with the last decommissioned in 1973 The Gearing class was the classic US Navy wartime destroyer to have a second Cold War career some being modified into picket ships and others into ASW escorts Ninety five were extensively modernized under the Fleet Modernization and Rehabilitation FRAM program which allowed them to serve until 1980 The majority of these ships then saw service with foreign navies However the story of Cold War gun destroyers is not just one of World War II relics Commissioned in the 1950s the 18 ships of the Forrest Sherman class were the US Navy's last all gun destroyers and were considered to be the pinnacle of US Navy gun destroyer design Later in their careers most were modernized for ASW and

antiair warfare The virtually unknown Norfolk class was originally built as a destroyer leader and maximized for ASW but only two were modernized and the other three retired early Many of these ships such as USS Edson Cassin Young and Turner Joy still survive as museum ships today Using battlescene artwork detailed illustrations and photos this book explores the careers modernizations and roles of all these unsung Cold War stalwarts the last gun destroyers of the US Navy *US Navy Gun Destroyers 1945-88* Mark Stille,2023-10-26 An illustrated history of the long Cold War careers of the US Navy s last gun destroyers from the modernized World War II era Fletcher class to the Forrest Sherman class The finest American destroyers of World War II had surprisingly long careers into the Cold War and the missile age The 175 strong Fletcher class was the largest class of US Navy destroyers ever built and most received some modernization after World War II A handful were converted into ASW Anti Submarine Warfare escorts and one was even converted into the US Navy s first guided missile destroyer Many Sumner class destroyers were also kept in service with the last decommissioned in 1973 The Gearing class was the classic US Navy wartime destroyer to have a second Cold War career some being modified into picket ships and others into ASW escorts Ninety five were extensively modernized under the Fleet Modernization and Rehabilitation FRAM program which allowed them to serve until 1980 The majority of these ships then saw service with foreign navies However the story of Cold War gun destroyers is not just one of World War II relics Commissioned in the 1950s the 18 ships of the Forrest Sherman class were the US Navy s last all gun destroyers and were considered to be the pinnacle of US Navy gun destroyer design Later in their careers most were modernized for ASW and antiair warfare The virtually unknown Norfolk class was originally built as a destroyer leader and maximized for ASW but only two were modernized and the other three retired early Many of these ships such as USS Edson Cassin Young and Turner Joy still survive as museum ships today Using battlescene artwork detailed illustrations and photos this book explores the careers modernizations and roles of all these unsung Cold War stalwarts the last gun destroyers of the US Navy **Electronic Greyhounds** Michael C. Potter,1995 Since their introduction in 1975 Spruance DD 963 class destroyers have revolutionized the U S Navy This book describes how the ships emerged from a cloud of controversy to become the mainstays of today s surface fleet Solidly based on official documents and firsthand experience by key participants it is the first complete account of the warships that have seen more action since 1980 than all other surface combatants combined **Sumner-Gearing-class Destroyers** Robert F. Sumrall,1995 The US Navy s Sumner Gearing class destroyers served as a standard for post WWII destroyer design and development In this outstandingly illustrated work bandw throughout with a 16 page color center spread Sumrall traces the origins and evolution of these destroyers over nearly forty years and through three wars showing the advances made in ordnance fire control and steam engineering Annotation copyright by Book News Inc Portland OR *US Destroyers 1942-45* Dave McComb,2011-12-20 Few if any 20th century warships were more justly acclaimed than the destroyers of the U S Navy s Fletcher class Admired as they were for their advanced and rakish design it was their record as workhorses of the

Navy Destroyers Jeremiah N. Haag, 2013-01-01 This book presents background information and potential oversight issues for Congress on the Navy's Arleigh Burke DDG 51 and Zumwalt DDG 1000 class destroyer programs The Navy's proposed FY2013 budget requests funding for the procurement of two DDG 51s The Navy for FY2013 is also requesting congressional approval to use a multi year procurement MYP arrangement for the nine DDG 51s scheduled for procurement in FY2013 FY2017 Decisions that Congress makes concerning these programs could substantially affect Navy capabilities and funding requirements and the U S shipbuilding industrial base
