John Otto

Utopianism And Radicalism In A Reforming America 1888 1918 Contributions In American History:

Utopianism and Radicalism in a Reforming America Francis Robert Shor, 1997-08-30 Utopianism and radicalism achieve greater prominence when economic and social crises render the dominant moral and political universe open to question The essays in this book examine how utopianism and radicalism informed the literary expressions political discourse communal experiments and cultural projects in the U S from 1888 to 1918 In particular these essays track how socialism anarchism syndicalism feminism and black nationalism contested the ideological terrain during a period when reform ideas and movements were beginning to reshape that terrain The degree to which utopianism and radicalism were involved in that reformulation either in its expanse or its constraint is of prime interest throughout the book Teachers and students interested in utopian studies American studies and the cultural intellectual history of the Gilded Age and the Progressive Era will find this book highly useful

Labor's Millennium Brett H. Smith, 2010-01-01 Historians have traditionally interpreted the American land grant higher education movement as the result of political and economic forces Little attention has been given however to any explicit or implicit theological motivations for the movement This book tells the story of how the Christian belief of many founders of the University of Illinois motivated their educational theory and practice Constructing a social gospel of labor s millennium their shorthand for God s kingdom being enhanced through agricultural and mechanical education they initially proposed that the university would impart a millenarian blessing for the larger society by providing abundant food economic prosperity vocational dignity and a charitable spirit of sacred unity and public service Rich in primary source research Smith s account builds a compelling case for at least one such institution s adaptation of an inherited evangelical educational tradition transitioning into a new era of higher learning that has left its mark on university life today

The Final Frontiers, 1880-1930 John Otto, 1999-09-30 An examination of the settlement history of the alluvial bottomlands of the lower Mississippi Valley from 1880 to 1930 this study details how cotton growers transformed the swamplands of northwestern Mississippi northeastern Louisiana northeastern Arkansas and southern Missouri into cotton fields Although these alluvial bottomlands contained the richest cotton soils in the American South cotton growers in the Southern bottomlands faced a host of environmental problems including dense forests seasonal floods water logged soils poor transportation malarial fevers and insect pests This interdisciplinary approach uses primary and secondary sources from the fields of history geography sociology agronomy and ecology to fill an important gap in our knowledge of American environmental history Requiring laborers to clear and cultivate their lands cotton growers recruited black and white workers from the upland areas of the Southern states Growers also supported the levee districts which built imposing embankments to hold the floodwaters in check Canals and drainage ditches were constructed to drain the lands and local railways and graveled railways soon ended the area s isolation Finally quinine and patent medicines would offer some relief from the malarial fevers that afflicted bottomland residents and commercial poisons would combat the local pests that attacked the

cotton plants including the boll weevils which arrived in the early twentieth century **Members of the Regiment** Michele Nacy, 2000-04-30 Many extraordinary women traveled west with their Army officer husbands between 1865 and 1890 and discovered a world that was completely controlled by the United States Army The Army as a public institution colored virtually every aspect of their domestic lives Army directives customs and traditions imposed social obligations on these women and the world of the frontier Army garrison continually challenged their sense of what it meant to be true women Remarkably they flourished and established a defined role for themselves that went beyond the conventional definition of true womanhood The shared values loyalties and patriotism within the institutional environment of the frontier garrison transcended gender As distinctly masculine as the Army garrison was perceived to be the officers wives shared with their comrades in arms an unequivocal commitment to the Regiment Because of their presence the frontier garrison became a much different place to live as they subtly and slowly changed the very nature of the institution through their efforts to bring some notion of proper society to these rugged circumstances Unlike most studies which focus only on farm and frontier women this volume details the experiences of the women who viewed the world from within garrison walls Utopianism and Radicalism in a Reforming America Francis Robert Shor, 1997-08-30 Utopianism and radicalism achieve greater prominence when economic and social crises render the dominant moral and political universe open to question The essays in this book examine how utopianism and radicalism informed the literary expressions political discourse communal experiments and cultural projects in the U S from 1888 to 1918 In particular these essays track how socialism anarchism syndicalism feminism and black nationalism contested the ideological terrain during a period when reform ideas and movements were beginning to reshape that terrain The degree to which utopianism and radicalism were involved in that reformulation either in its expanse or its constraint is of prime interest throughout the book Teachers and students interested in utopian studies American studies and the cultural intellectual history of the Gilded Age and the Progressive Era will find this book highly useful *Keepers of the Spirits* John Guthrie Jr., 1998-01-26 Drawn from research in the manuscript records of the federal judiciary and the court reports of the Florida Supreme Court this book examines how state and federal judges responded to the enforcement of local state and national prohibition in Florida Upholding these measures often resulted in governmental encroachment on civil liberties consequently judges found themselves positioned to determine the scope of the liquor laws As they balanced the rights of individuals with the power of the state Florida judges acted independently of public opinion and based their rulings on precedent and citation of authority To present the fullest picture possible this text while focusing on the efforts of the judges to uphold the spirit and the letter of the various liquor laws it also considers the views of individuals who violated prohibition Keeping the Faith Abel A. Bartley, 2000-04-30 An examination of the political and economic power of a large African American community in a segregated southern city this study attacks the myth that blacks were passive victims of the southern Jim Crow system and reveals instead that in Jacksonville Florida blacks used political

and economic pressure to improve their situation and force politicians to make moderate adjustments in the Jim Crow system Bartley tells the compelling story of how African Americans first gained then lost then regained political representation in Jacksonville Between the end of the Civil War and the consolidation of city and county government in 1967 the political struggle was buffeted by the ongoing effort to build an economically viable African American economy in the virulently racist South It was the institutional complexity of the African American community that ultimately made the protest efforts viable Black leaders relied on the institutions created during Reconstruction to buttress their social agitation Black churches schools fraternal organizations and businesses underpinned the civil rights activities of community leaders by supplying the people and the evidence of abuse that inflamed the passions of ordinary people The sixty year struggle to break down the door blocking political power serves as an intriguing backdrop to community development efforts Jacksonville s African American community never accepted their second class status From the beginning of their subjugation they fought to remedy the situation by continuing to vote and run for offices while they developed their economic and social institutions *Frontier Profit and Loss* Walter S. Dunn Jr.,1998-05-30 By 1760 with the alleviation of the French threat to the western frontier colonial fur traders headed west to reap the bounty of trade with the local tribes However when dissatisfied French interests conspired to instigate a revolt the resulting Pontiac Uprising would force the British to rethink colonial trade policy The fur traders who had considered the British government their ally in exploiting the west now saw the British allying themselves with the French and local tribes to keep the colonists out of the region The prominent merchants who suffered financially and received no compensation would soon come to oppose British rule The fur trade and land speculation were two driving forces in the westward spread of merchant interests but the promise of such riches would remain unfulfilled Regulation of the trade would prove an enormous expense for the British thus to avoid the financial burden as well as to remove ill treatment of the Native Americans as a cause for conflict the Proclamation of 1763 prohibited settlement west of the mountains The resulting dissatisfaction among the traders and speculators cost the British the support of colonial merchants This book is an informative account of the interaction of economic political and social concerns on the western frontier **Socialism and Christianity in Early 20th Century America** Jacob Henry Dorn,1998-08-30 Despite an anti religious reputation and the anti religious worldview of many members the American Socialist movement held a primarily religious and moral attraction for a small but highly articulate group of American Christians of diverse religious tradition This study explores the dramatic and at times dangerous lives of individuals who found in the vibrant growing socialist movement before World War I the grounds for hope that the biblical ideals of human worth and economic justice would at last be fulfilled Its subjects are male and female black and white native and foreign born clergy and lay people and products of Christian traditions ranging from African American Baptist to Episcopalian Readers will find not Milquetoasts standing hesitantly on the sidelines but Christians with an unequivocal commitment to the complete socialist program who made major contributions to socialist

work as authors political candidates and party leaders Biographical chapters examine the interaction between their subjects experiences amidst the suffering of an urban industrial society and their religious commitments the perspectives on the meaning of socialism they brought to their work for the Socialist Party of America and their careers after war and the rise of communism shattered the socialist movement These biographies and an introductory chapter on the wider relationships between religion and socialism in Progressive era America demonstrate that Christians made quite substantial contributions to the party and that far from being a monolithic group they spread out across the spectrum of socialist ideology and tactics Other issues include attempts to spread socialism within the churches the Socialist Party s debates over religion Roman Catholic efforts to prevent Catholic workers acceptance of socialism and the ethical qualities that made socialism appealing to Christians

The Senate Munitions Inquiry of the 1930s Matthew W. Coulter,1997-07-23 Examines the work of the U S Senate Special Committee to Investigate the Munitions Industry Nye Committee 1934 1936 Program of the ... Annual Meeting Organization of American Historians. Meeting,1998 The Frontier in the Colonial South George L. Johnson,1997-10-30 Using the New Social History method and examining nearly every document produced over the years covered this study examines the growth of communities in the Upper Pee Dee region of the South Carolina backcountry in the 18th century The study considers the emergence of a landed elite slavery and a mobile population plus the disestablishment of the Anglican Church Inhabitants of the Cheraws District had access to a river that flowed to the coast allowing them to transport their agricultural produce to the market at Georgetown This ease of transportation enabled the district to become more developed than other regions of the South Carolina backcountry In the 1770s local inhabitants built a courthouse and a jail and members of the rising planter class formed St David s Society to educate parish youth Records from two of the oldest Baptist churches in the South provide clues to communal cohesion and ethnicity These accounts combined with land and probate records provide information concerning settlement wealth and slaveholding patterns in the region

An Independent Woman Anne B. Allen,2000-07-30 During World War I she organized assistance for American travelers stranded in Europe campaigned on behalf of the Commission for the Relief of Belgium and set up a boarding house in Washington D C for young women working in war related agencies *Left History* ,2006 **Bibliographie**

Internationale Des Recensions de la Litt Ératue Savante ,1997 **American Book Publishing Record** ,1997-09

The Cumulative Book Index ,1997 A world list of books in the English language *Choice* ,1998 **Bibliographic Index** ,1997 Subject Guide to Books in Print ,1991
