Wagons For The Santa Fe Trade Wheeled Vehicles And Their Makers 1822 188:

Wagons for the Santa Fe Trade Mark Lee Gardner,2000 A profusely illustrated history that identifies wagon makers and wagon types that for a half century hauled commercial goods over the Santa Fe Trail Kansas History ,2000 **The Journal of Arizona History** ,1965 *America, History and Life* ,2001 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide

Arts & Humanities Citation Index ,2002 *Wagons on the Santa Fe Trail 1822 - 1880* National Park Service,2014-04-04 The first wagons to cross the plains from Missouri to New Mexico were part of William Becknell s 1822 Santa Fe trading expedition The year previous Becknell and five companions had been the first American traders to penetrate the newly independent Mexican nation The handsome profits realized on that venture were the driving force behind the considerably more ambitious second expedition which set out for Santa Fe within nine months of the first According to Becknell s now famous journal first published in the pages of the Missouri Intelligencer in 1823 his 1822 company consisted of 21 men with three waggons 1 It appears that only one of the wagons belonged to the expedition s leader however 2 This wagon it was later reported had cost 150 in Missouri and was sold by Becknell in New Mexico for 700 3 The other wagons were probably disposed of in a like manner they do not seem to have returned to Missouri What these wagons looked like their hauling capacities and where they were made and by whom all this is unknown Their importance however is unquestioned They proved that merchandise laden wagons could navigate the 800 plus miles between Franklin Missouri and Santa Fe a remarkable feat that did not go unnoticed No wagons were reported on the Santa Fe Trail in 1823 but the 1824 caravan contained an amazing assemblage of vehicles Meredith Miles Marmaduke a member of this company recorded in his diary on May 24 that they traveled with 2 road waggons 20 dearborns 2 carts and one small piece of cannon 4 Augustus Storrs another member of the expedition wrote some months later that there had been twenty three four wheeled vehicles one of which was a common road wagon 5 Although Marmaduke and Storrs do not agree on the number of vehicles in the caravan it is important to note their use of the term road wagon According to transportation historian Don Berkebile in his *Carriage Terminology An Historical Dictionary* the term has two definitions One describes a vehicle also known as a buggy The term was also loosely applied Berkebile tells us to larger WAGONS that were employed in the movement of materials or merchandise over the roads 6 The second definition is probably the one intended by Marmaduke and Storrs Santa Fe trader and historian Josiah Gregg uses road wagon in his *Commerce of the Prairies* 1844 to denote freight wagons 7 Although the term leaves us to speculate on the appearance of these vehicles it is possible that the road wagons in the 1824 caravan were the first actual freight wagons to travel the Santa Fe Trail 8 **The Wagonmasters** Henry Pickering Walker,1986-04 From 1822 when the first wagons were used in the Santa Fe trade until 1880 when the completion of major railroad lines made the wagon train all but obsolete wagon freighting was essential to the trade settlement and growth of the

American West from the Missouri Valley to the Great Basin Freighters carried goods to and from Santa Fe bringing in much of the trade goods for the settlements of the Mountain West Under contract to the government they supplied the army sent to fight Mexicans and American Indians Without the wagonmasters the flow of gold from the mines of Colorado and Montana which proved essential during the Civil War would have been delayed at least a decade The Wagonmasters is the first comprehensive account of this colorful bygone industry and the men who worked the wagon trains bullwhackers and mule skimmers A breed apart they developed their own customs and language greatly enriching American speech The business was hard dirty and dangerous but the wagon freighters like the U S mail almost always came through **Wheels West, 1590-1900** Richard Dunlop,1977 More than two hundred rare period illustrations enhance a chronicle of the impact of wagons coaches and other wheeled vehicles on the settlement of the American West **The Rise and Decline of High Plains Wagon Freighting, 1822-1880** Henry Pickering Walker,1965 Walker s research is concerned with the importance of wagon freighting in the economic development of the American West The time period under discussion begins in 1822 with early merchandise wagons making the trip from Franklin Missouri to Santa Fe New Mexico It concludes in 1880 when the railroad system reaches the mining towns of Montana Some illustrations are reproduced from historic photographs Maps show principal routes of both water and land commerce Charts and graphs follow the extensive bibliography Some show the number of wagons by year while others depict comparative prices of wool and grocery items such as coffee bacon sugar and flour
