Walking On Water Reading Writing And Revolution:

Walking on Water Derrick Jensen, 2005 This is a hard hitting and sometimes scathing critique of the current educational system that not only gives a hands on method for learning how to write but also a lesson on how to connect to the core of our creative selves *Walking on Water* Derrick Jensen, 2005-04-30 Remember the days of longing for the hands on the classroom clock to move faster Most of us would say we love to learn but we hated school Why is that What happens to creativity and individuality as we pass through the educational system *Walking on Water* is a startling and provocative look at teaching writing creativity and life by a writer increasingly recognized for his passionate and articulate critique of modern civilization This time Derrick Jensen brings us into his classroom whether college or maximum security prison where he teaches writing He reveals how schools perpetuate the great illusion that happiness lies outside of ourselves and that learning to please and submit to those in power makes us into lifelong clock watchers As a writing teacher Jensen guides his students out of the confines of traditional education to find their own voices freedom and creativity Jensen s great gift as a teacher and writer is to bring us fully alive at the same moment he is making us confront our losses and count our defeats It is at the center of *Walking on Water* a book that is not only a hard hitting and sometimes scathing critique of our current educational system and not only a hands on method for learning how to write but like Julia Cameron s *The Artist s Way* a lesson on how to connect to the core of our creative selves to the miracle of waking up and arriving breathless but with dry feet on the far shore **Awaken 101** Christopher Uhl, Melissa DiJulio, 2020-09-15 Discovering our meaning and purpose our reason for being can seem like an impossible task especially given the tumultuous times in which we find ourselves Through challenging provocations uplifting narratives and profound insights this book emboldens readers to experience their lives not as spectators but as reflective courageous and purposeful participants We can turn toward the problems look them in the eye and begin the work of setting things right we can begin the process of awakening Organized as a five part journey it explores both cognitively and experientially what it might mean to assume the rightful authorship of your life By breaking out of the dominant narrative of how life should be lived and by becoming more aware of the world around us we can gain the tools essential for becoming open minded embodied introspective and soulful human beings *The Ethics of Homelessness: Philosophical Perspectives*, 2020-01-20 This new and expanded edition of G John M Abbarno s anthology *The Ethics of Homelessness* underscores what is ignored in plain sight people without a home or dwelling are also without privacy and dignity It is argued that they lack moral standing The chapters uncover the harsh realities of poverty where economic value overrides competing human values Naomi Zack argues that homelessness is symbolic of society s materialistic values It has a tendency to resist sufficient charity and perpetuates conditions of injustice Uma Narayan questions whether the homeless have protection under the U S Constitution Other authors present an enlarged sphere of homeless to include runaway children refugees adoptees and the disabled The book demonstrates the value of applied philosophy *The Demise of the*

Library School Richard J. Cox, 2010 In *The Demise of the Library School* Richard J Cox places the present and future of professional education for librarianship in the debate on the modern corporate university The book is a series of meditations on critical themes relating to the education of librarians archivists and other information professionals playing off of other commentators analyzing the nature of higher education and its problems and promises *Revolutions in Learning and Education from India* Christoph Neusiedl, 2021-02-15 This book offers an important critique of the ways in which mainstream education contributes to perpetuate an inherently unjust and exploitative Development model Instead the book proposes a new anarchistic postdevelopmental framework that goes beyond Development and schooling to ask what really makes a meaningful life Challenging the notion of Development as a win win relationship between civil society the state and the private sector the book argues that Development perpetuates a hierarchical world order and that the education system serves to reinforce and re legitimise this unequal order Drawing on real life examples of unschooling and self designed learning in India the book demonstrates that more autonomous approaches such as these can help to fundamentally challenge dominant ideas of education equality development and what it means to lead meaningful lives The interdisciplinary approach pursued in this book makes it perfect for anyone with interests across the areas of education development studies radical political theory and philosophy

Higher Education Accessibility Behind and Beyond Prison Walls McMay, Dani V., Kimble, Rebekah D., 2020-04-17 Numerous studies indicate that completing a college degree reduces an individual's likelihood of recidivating However there is little research available to inform best practices for running college programs inside jails or prisons or supporting returning citizens who want to complete a college degree *Higher Education Accessibility Behind and Beyond Prison Walls* examines program development and pedagogical techniques in the area of higher education for students who are currently incarcerated or completing a degree post incarceration Drawing on the experiences of program administrators and professors from across the country it offers best practices for 1 developing running and teaching in college programs offered inside jails and prisons and 2 providing adequate support to returning citizens who wish to complete a college degree This book is intended to be a resource for college administrators staff and professors running or teaching in programs inside jails or prisons or supporting returning citizens on traditional college campuses

The Derrick Jensen Reader Derrick Jensen, 2012-07-03 In an age marked by seemingly unstoppable environmental collapse and the urgent quest for solutions environmental philosopher Derrick Jensen the voice of the growing deep ecology movement reveals for us new seeds of hope Here for the first time in *The Derrick Jensen Reader* are collected generous selections from his prescient unflinching books on the problem of civilization and the path to true resistance In the acclaimed *A Language Older Than Words* Jensen dissects his own abusive childhood to examine the pathology of Western culture and shares with us the power and beauty of an alliance with the natural world He continues to use the lens of his own experience as well as the wisdom of philosophers activists and teachers to expose oppression and call us to action in his other early works *Listening to*

the Land A Culture of Make Believe Strangely Like War and Walking on Water We see his analysis deepen when he asks us to accept that the only moral response to biocide is resistance in the two volume *Endgame* a truth he explores further in *Thought to Exist in the Wild What We Leave Behind* the graphic novel *As The World Burns* and in his two novels *Songs of the Dead* and *Lives Less Valuable* And in *Dreams* Jensen s latest work he leads us still further toward his vision for a healed planet freeing us to see beyond the limits of our present culture to a future luminous with meaning **The Emperor Has No Clothes** Tema Okun,2010-10-01 *The Emperor Has No Clothes Teaching About Race and Racism to People Who Don t Want to Know* offers theoretical grounding and practical approaches for leaders and teachers interested in effectively addressing racism and other oppressive constructs The book draws both on the author s extensive experience teaching about race and racism in classroom and community settings and from the theory and practice of a wide range of educators activists and researchers committed to social justice The first chapter looks at the toxic consequences of our western cultural insistence on profit binary thinking and individualism to establish the theoretical framework for teaching about race and racism Chapter two investigates privileged resistance offering a psycho social history of denial particularly as a product of racist culture Chapter three reviews the research on the construction and reconstruction of dominant culture both historically and now in order to establish sound strategic approaches that educators teachers facilitators and activists can take as we work together to move from a culture of profit and fear to one of shared hope and love Chapter four lays out the stages of a process that supports teaching about racist white supremacy culture explaining how students can be taken through an iterative process of relationshipbuilding analysis planning action and reflection The final chapter borrows from the brilliant brave and incisive writer Dorothy Allison to discuss the things the author knows for sure about how to teach people to see that which we have been conditioned to fear knowing The chapter concludes with how to encourage and support collective and collaborative action as a critical goal of the process *Endgame, Volume 2* Derrick Jensen,2011-01-04 Whereas Volume 1 of *Endgame* presents the problem of civilization Volume 2 of this pivotal work illustrates our means of resistance Incensed and hopeful impassioned and lucid *Endgame* leapfrogs the environmental movement s deadlock over our willingness to change our conduct focusing instead on our ability to adapt to the impending ecological revolution **Rethinking English in Schools** Viv Ellis,Carol Fox,Brian Street,2007-11-20 Why should young people study a subject called English This question lies at the heart of this fascinating monograph which brings together the diverse perspectives of many leading thinkers about English and literacy education This meticulously researched and well written collection takes as its starting point the importance of the history of the subject in the formation of its constitution and its boundaries First and foremost it proposes that questions of aims and values have informed these choices Equally it suggests that returning to these educational questions helps us to understand curriculum and pedagogy in complex ways that a simple focus on content and methods neglects Curriculum and pedagogy bring learners teachers institutions and the wider society into the debate **Towards**

Critical Environmental Education Aristotelis S. Gkiolmas, Constantine D. Skordoulis, 2020-11-03 This volume discusses theory philosophy praxis and methods in Environmental and Ecological education and considers the junction with the main visions and issues of Critical Pedagogy The volume and its separate chapters address four axes which can also be seen as the guidelines of the content as well as the central objectives of the book The first axis concerns the missing theoretical and practical pieces at this point in time The volume considers the issues that are not included in contemporary Environmental Education and thus deprive it from critical orientations This implies that in Environmental Education very little discussion exists about the political economic racial gender and class issues that in most cases govern the actions of leaders and stakeholders The second axis concerns what has been done so far and in what directions This involves descriptions of theoretical approaches or actual applied methodologies in the classroom such as curricula or syllabus used or the kind of actions certain educators have taken to infuse the issues of justice and critical reflection within the Environmental Education teaching agenda The third axis examines proposals It looks at ways to enrich domains of Environmental Education with the argumentations of Critical Pedagogy The fourth axis concerns the way in which proposals can be effectuated This part contains specific methodologies and teaching sequences depicting ways of including major aspects of Critical Pedagogy and Critical Education in Environmental Education Examples are Non anthropocentric ecological approaches in the classroom political activism in the Curricula mixture of field activities and political activities
