responsible investment SRI tools e.g. standards, guidelines and codes of conduct. However, a classification system for SRI tools in the field of planted forests still lacks consensus.

Sustainable Marketing Mark Peterson, 2021-04-28. Building on the idea that holistic marketing strategies allow firms to assess risk and realise opportunities, this book draws on new research and industry examples to help you recognize effective sustainability practices that benefit companies, stakeholders and society. With an issue-based approach that dissects the interplay between marketing and society, the author encourages readers to critically engage with the changing nature of markets, how companies can adapt to sustainability guidelines and environmental threats while still remaining profitable in today's global market. Using a range of examples including Costco, Juul, Facebook, Patagonia and Bitcoin, Peterson highlights the importance of social issues facing businesses today, such as poverty alleviation, the drive towards more green living, corporate social responsibility within firms and political pressures such as emissions guidelines and reducing the global carbon footprint. *The Mavericks Who Made It* feature also highlights key entrepreneurs throughout history, their key successes and their impact on sustainable marketing.

Shadow Banking Roy J. Girasa, 2016-10-02. This comparative study explores how shadow banking differs from the traditional banking system. It discusses the origins, history, purposes, risks, regulatory constraints and projected future evolution of both financial sectors of the world economy. This thorough examination of non-bank financial intermediaries follows the migration of services from traditional banks to less regulated alternative banking products, as well as the evolution of regulations and the Financial Stability Oversight Council to monitor these new entities. Three chapters explore in depth the major financial structures newly designated as systemically important financial institutions (SIFIs) with particular attention to insurance companies such as MetLife, which seek exemption from the designation. Finally, the focus shifts to international financial institutions' efforts to protect consumers and curtail irresponsible shadow banks, with an eye toward the effects of these actions on future banking practices.
