Real Estate Principles Charles J. Jacobus, Bruce M. Harwood, 1996 **Washington Real Estate License Exam Prep** David Cusic, Ryan Mettling, Ben Scheible, 2020-01-11 WA RELEP is comprehensive in that it contains both key content review and testing practice And the text review is Washington specific not just simplistic national content but terse relevant and accurate Washington laws and regulations presented as a well organized set of state key point reviews ideal for pre test memorization But let's not dismiss the importance of the national content either WA RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast Our content is drawn from our own national textbook Principles of Real Estate Practice one of the most widely used principles textbooks in the country Finally our national content as well as our question selection is further tailored to the state testing outline promulgated by AMP PSI for Washington Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Washington license exam A word about the test questions WA RELEP's testing practice section consists of ten national practice tests five state practice tests and one state exam sample test The practice tests are roughly 50 questions in length

and the sample test is 100 questions The test questions are designed to cover the content covered by the law reviews which reinforces your learning of the total body of information tested by your state exam The questions are direct to the point and designed to test your understanding When you have completed a given test you can check your answers against the answer key in the appendix You may also note that each question s answer is accompanied by a brief explanation or rationale to further reinforce your understanding Amazon *Real Estate Principles* Henry Elmer Hoagland,1940
