Wild Spectacle Janisse Ray, 2021-10-26 Looking for adventure and continuing a process of self discovery Janisse Ray has repeatedly set out to immerse herself in wildness to be wild and to learn what wildness can teach us From overwintering with monarch butterflies in Mexico to counting birds in Belize the stories in *Wild Spectacle* capture her luckiest moments ones of heart pounding amazement discovery of romance and moving toward living more wisely In Ray's worst moments she crosses boundaries to encounter danger and embrace sadness Anchored firmly in two places Ray has called home Montana and southern Georgia the sixteen essays here span a landscape from Alaska to Central America connecting common elements in the ecosystems of people and place One of her abiding griefs is that she has missed the sights of explorers like Bartram Sacagawea and Carver flocks of passenger pigeons routes of wolves herds of bison She craves a wilder world and documents encounters that are rare in a time of disappearing habitat declining biodiversity and a world too slowly coming to terms with climate change In an age of increasingly virtual urban life Ray embraces the intentionality of trying to be a better person balanced with seeking out natural spectacle abundance and less trammelled environments She questions what it means to travel into the wild as a woman speculates on the impacts of ecotourism and travel in general questions assumptions about eating from the land and appeals to future generations to make substantive change *Wild Spectacle* explores our first home the wild earth and invites us to question its known and unknown beauties and curiosities

This Radical Land Daegan Miller, 2024-05-31 The American people sees itself advance across the wilderness draining swamps straightening rivers peopling the solitude and subduing nature wrote Alexis de Tocqueville in 1835 That's largely how we still think of nineteenth century America today a country expanding unstoppably bending the continent's

natural bounty to the national will heedless of consequence A country of slavery and of Indian wars There s much truth in that vision But if you know where to look you can uncover a different history one of vibrant resistance one that s been mostly forgotten This Radical Land recovers that story Daegan Miller is our guide on a beautifully written revelatory trip across the continent during which we encounter radical thinkers settlers and artists who grounded their ideas of freedom justice and progress in the very landscapes around them even as the runaway engine of capitalism sought to steamroll everything in its path Here we meet Thoreau the expert surveyor drawing anticapitalist property maps We visit a black antislavery community in the Adirondack wilderness of upstate New York We discover how seemingly commercial photographs of the transcontinental railroad secretly sent subversive messages and how a band of utopian anarchists among California s sequoias imagined a greener freer future At every turn everyday radicals looked to landscape for the language of their dissent drawing crucial early links between the environment and social justice links we re still struggling to strengthen today Working in a tradition that stretches from Thoreau to Rebecca Solnit Miller offers nothing less than a new way of seeing the American past and of understanding what it can offer us for the present and the future *The Readers' Advisory Guide to Nonfiction* Neal Wyatt,2007-05-14 Navigating what at she calls the extravagantly rich world of nonfiction renowned readers advisor RA Wyatt builds readers advisory bridges from fiction to compelling and increasingly popular nonfiction to encompass the library s entire collection She focuses on eight popular categories history true crime true adventure science memoir food cooking travel and sports Within each she explains the scope popularity style major authors and works and the subject s position in readers advisory interviews Wyatt addresses who is reading nonfiction and why while providing RAs with the tools and language to incorporate nonfiction into discussions that point readers to what to read next In easy to follow steps Wyatt Explains the hows and whys of offering fiction and nonfiction suggestions together Illustrates ways to get up to speed fast in nonfiction Shows how to lead readers to a variety of books using her read around and reading map strategies Provides tools to build nonfiction subject guides for the collection This hands on guide includes nonfiction bibliography key authors benchmark books with annotations and core collections It is destined to become the nonfiction bible for readers advisory and collection development helping librarians library workers and patrons select great reading from the entire library collection *Washington Schlepped Here* Christopher Buckley,2007-12-18 The father of our country slept with Martha but schlepped in the District Now in the great man s footsteps comes humorist and twenty year Washington resident Christopher Buckley with the real story of the city s founding Well not really We re just trying to get you to buy the book But we can say with justification that there s never been a more enjoyable funny and informative tour guide to the city than Buckley His delight as he points out things of interest is contagious and his frequent digressions about his own adventures as a White House staffer are often hilarious In *Washington Schlepped Here* Buckley takes us along for several walks around the town and shares with us a bit of his other Washington They include Dante s Paradiso Union Station the Zero Milestone of

American democracy the U S Capitol the Almost Pink House the White House and many other historical and often hysterical journeys Buckley is the sort of wonderful guide who pries loose the abalone like clichés that cling to a place as mythic as D C Wonderfully insightful and eminently practical Washington Schlepped Here shows us that even a city whose chief industry is government bureaucracy is a lot funnier and more surprising than its media ready image might let on From the Hardcover edition

Wandering Home Bill McKibben, 2005 The acclaimed author of *The End of Nature* takes a three week walk from his current home in Vermont to his former home in the Adirondacks and reflects on the deep hope he finds in the two landscapes Bill McKibben begins his journey atop Vermont's Mt Abraham with a stunning view to the west that introduces us to the broad Champlain Valley of Vermont the expanse of Lake Champlain and behind it the towering wall of the Adirondacks In my experience McKibben tells us the world contains no finer blend of soil and rock and water and forest than that found in this scene laid out before me a few just as fine perhaps but none finer And no place where the essential human skills cooperation husbandry restraint offer more possibility for competent and graceful inhabitation for working out the answers that the planet is posing in this age of ecological pinch and social fray The region he traverses offers a fine contrast between diverse forms of human habitation and pure wilderness On the Vermont side he visits with old friends who are trying to sustain traditional ways of living on the land and to invent new ones from wineries to biodiesel After crossing the lake in a rowboat he backpacks south for ten days through the vast Adirondack woods As he walks he contemplates the questions that he first began to raise in his groundbreaking meditation on climate change *The End of Nature* What constitutes the natural How much human intervention can a place stand before it loses its essence What does it mean for a place to be truly wild *Wandering Home* is a wise and hopeful book that enables us to better understand these questions and our place in the natural world It also represents some of the best nature writing McKibben has ever done

Companies We Keep John Abrams, 2008-09-10 Part memoir and part examination of a new business model the 2005 release of *The Company We Keep* marked the debut of an important new voice in the literature of American business Now in *Companies We Keep* the revised and expanded edition of his 2005 work John Abrams further develops his idea that companies flourish when they become centers of interdependence or communities of enterprise Thoroughly revised with an expanded focus on employee ownership and workplace democracy *Companies We Keep* celebrates the idea that when employees share in the rewards as well as the responsibility for the decisions they make better decisions result This is an especially timely topic Most of the baby boomer generation the owners of millions of American businesses will retire within the next two decades In 2001 50 000 businesses changed hands In 2005 that number rose to 350 000 Projections call for 750 000 ownership transitions in 2009 Employee ownership in both the philosophical and the practical sense is gathering steam as businesses change hands and Abrams examines some of the many ways this is done *Companies We Keep* is structured around eight principles from Sharing Ownership and Cultivating Workplace Democracy to Thinking Like Cathedral Builders and Committing to the Business of

Place that Abrams has discovered in the 32 years since he cofounded South Mountain Company on the island of Martha's Vineyard Together these principles reveal communities of enterprise as a potent force of change that can and will improve the way Americans do business *Over* Alex MacLean, 2008-10 A collection of 250 full color aerial photographs of the American landscape captures the complex interrelationship between the natural and constructed environments the impact of the American lifestyle on the environment and the consequences of both natural processes and human intervention
