Playing Well With Others Lee Harrington, Mollena Williams, 2012-02-29 Whether you're a trembling novice or a jaded expert, there's always something new to be discovered in the endlessly changing, complex, and titillating world of kink. While there are plenty of other books out there that explain how to give a spanking or tie a half hitch, *Playing Well With Others* is the first book that explains kink culture: the munches, parties, leather bars, conferences, workshops, fetish nights, exploratoriums, and all the other gatherings of kinksters that turn BDSM and leather from a bedroom predilection to a lifestyle and a community. You'll learn to examine your own motivations, needs, wants, and desires. Ease your way into established communities. Understand etiquette in different adventurous sex communities. Familiarize yourself with the many types of events available to you. Care for your relationships as you explore new territory. Negotiate for play and aftercare. Go back to the world at large without ruffling feathers and, of course, answer the all-important question: What do you wear? The team of Harrington and Williams offers 30+ years of experience in diverse kink communities: top/bottom and switch, gay/bi and straight, female/male and trans, white and POC. Both former titleholders and international educators, they are an unbeatable pair of sexual sherpas with an inimitable voice and a great deal of wisdom. *Playing Well With Others* is an unprecedented and essential guidebook for anyone who wants to explore or understand the community aspect of the kink lifestyle.

dignity in playing various roles Historically those who find pleasure in these failures range from ancient Cynics through early Christian monks to those now drawn by queer or perverse eroticism As Judith Halberstam pointed out in *The Queer Art of Failure* failure can actually be a mode of resistance to demands for what a culture defines as success Karmen MacKendrick draws on this interest in queer refusals To value desire or seek humiliation undercuts any striving for success but it draws our attention particularly to the failures of knowledge as a form of power whether that knowledge is of one body or of a population How can we understand will that seeks not to govern itself psychology that constructs inwardness by telling all blushing shame that delights in exposure or dignity that refuses its lofty position Failing Desire suggests that the power of these desires and pleasures comes out of the very realization that this question can never quite be answered
