A. PURPOSE

1. This Standard Operating Procedure (SOP) provides instructions on how to assess if individual police officers¹ from United Nations Member States (MS) fulfil the requirements for service in United Nations peacekeeping operations (PKO) or special political missions (SPM). This SOP also provides guidance and assistance to MSs in their pre-selection procedures.

¹ This term refers to individual officers who serve in Member State police, customs or border agencies, or in other Member State law enforcement agencies.

Un Saat Examination Interview Test:

Holding UNPOL to Account Ai Kihara-Hunt, 2017-03-06 Ai Kihara Hunt's Holding UNPOL to Account Individual Criminal Accountability of United Nations Police Personnel analyzes whether the mechanisms that address criminal accountability of United Nations police personnel serving in peace operations are effective and if there is a problem how it can be mitigated. The volume reviews the obligations of States and the UN to investigate and prosecute criminal acts committed by UN police and examines the jurisdictional and immunity issues involved. It concludes that these do not constitute legal barriers to accountability although immunity poses some problems in practice. The principal problem appears to be the lack of political will to bring prosecutions as well as a lack of transparency which makes it difficult accurately to determine the scale of the problem.

ARCHINESIA 5 Imelda Akmal (Editor in Chief), GOOD DESIGN IN ARCHITECTURE NOW. One of the most important, quite dominant processes in architecture is design process and the goal of architecture design is to obtain good design. Good design has double meaning: aesthetic and ethic. In architecture the two should be united as a single goal that a design process should strive for. Moreover, an architectural product does not only effect its client and architect. On a broader level, architectural products also effect their surrounding environments. In a large scale they may even have an effect on the economy and the social and political condition. The question is: How does an architectural design attain the label good design? We tried to find the answer through a round table discussion by inviting the two groups of professionals in Indonesia: practitioners and academics. What are their thoughts on this matter? You can peruse them in the main coverage of Archinesia vol 5.
