Deporte, comunicaci n, tecnologa y contexto social Francisco Joaquín García Marcos, Pablo García Mateo, 2022-04-07 La obra aborda el entorno social entre el que se desenvuelve el deporte como fen meno cultural de masas. Un millón de runners Runner's World España, 2014-10 Born to Run Christopher McDougall, 2009-05-05 NATIONAL BESTSELLER The astonishing and hugely entertaining story that completely changed the way we run An epic adventure that began with one simple question Why does my foot hurt Equal parts quest physiology treatise and running history The climactic race reads like a sprint It simply makes you want to run Outside Magazine Isolated by Mexico's deadly Copper Canyons the blissful Tarahumara Indians have honed the ability to run hundreds of miles without rest or injury In a riveting narrative award winning journalist and often injured runner Christopher McDougall sets out to discover their secrets In the process he takes his readers from science labs at Harvard to the sun baked valleys and freezing peaks across North America where ever growing numbers of ultra runners are pushing their bodies to the limit and finally to a climactic race in the Copper Canyons that pits America's best ultra runners against the tribe McDougall's incredible story will not only engage your mind but inspire your body when you realize that you indeed all of us were born to run Look for Born to Run 2 out now

Why We Run Bernd Heinrich, 2009-10-06 Each new page is more spellbinding than the one before this is surely one of the most interesting books I've ever read Elizabeth Marshall Thomas author of The Hidden Life of Dogs When Bernd Heinrich decided to write a memoir of his ultramarathon running experience he realized that the preparation for the race was as important if not more so than the race itself Considering the physiology and motivation of running from a scientific point of

view he wondered what he could learn from other animals In *Why We Run* Heinrich considers the flight endurance of birds the antelope s running prowess and limitations and the ultra endurance of camels to understand how human physiology can or cannot replicate these adaptations With his characteristic blend of scientific inquiry and philosophical musings Heinrich offers an original and provocative work combining the rigors of science with the passion of running *Born to Run* Christopher McDougall,2010 At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians the Tarahumara who live quietly in canyons and are reputed to be the best distance runners in the world in 1993 one of them aged 57 came first in a prestigious 100 mile race wearing a toga and sandals A small group of the world s top ultra runners and the awe inspiring author make the treacherous journey into the canyons to try to learn the tribe s secrets and then take them on over a course 50 miles long With incredible energy and smart observation McDougall tells this story while asking what the secrets are to being an incredible runner Travelling to labs at Harvard Nike and elsewhere he comes across an incredible cast of characters including the woman who recently broke the world record for 100 miles and for her encore ran a 2 50 marathon in a bikini pausing to down a beer at the 20 mile mark
