Fighting the Cold War in Post-Blockade, Pre-Wall Berlin Mark Fenemore, 2019-08-16 As fought in 1950s Berlin the cold war was a many headed monster Winning stomachs with enticing consumption was as important as winning hearts and minds with persuasive propaganda Demonstrators not only fought the police in the streets they were swayed one way or another by cultural competition Western espionage agencies waged brazen but surreptitious covert warfare while the Stasi fought back with a campaign of targeted kidnapping This book takes seriously a complex borderscape which narrowed but did not stem the flow of people ideas and goods over an open boundary Assessing the licit and the illicit the book stresses the messy and entwined nature of this war of a thousand cuts or miniscule salami slices While

brinkmanship was orchestrated by the elites in Moscow and Washington the effects of such intense psychological pressure were felt by ordinary Berliners who sought to carry on with their mundane but border straddling everyday lives in spite of the ideological bifurcation

Gender, Sexuality, and the Cold War Philip E. Muehlenbeck, 2021-04-30 As Marko Duman i writes in his introduction to *Gender Sexuality and the Cold War* despite the centrality of gender and sexuality in human relations their scholarly study has played a secondary role in the history of the Cold War It is not an exaggeration to say that few were left unaffected by Cold War gender politics even those who were in charge of producing disseminating and enforcing cultural norms were called on to live by the gender and sexuality models into which they breathed life This underscores the importance of this volume as here scholars tackle issues ranging from depictions of masculinity during the all consuming space race to the vibrant activism of Indian peasant women during this period to the policing of sexuality inside the militaries of the world *Gender Sexuality and the Cold War* brings together a diverse group of scholars whose combined research spans fifteen countries across five continents claiming a place as the first volume to examine how issues of gender and sexuality impacted both the domestic and foreign policies of states far beyond the borders of the United States during the tumult of the Cold War

Religion in Global Health and Development Benjamin Bronnert Walker, 2022-04-20 The COVID 19 pandemic has made evident that the field of global health its practices norms and failures has the power to shape the lives of billions Global health perspectives on the role of religion however are strikingly limited Uncovering the points where religion and global health have connected across the twentieth century focusing on Ghana provides an opportunity to challenge narrow approaches In *Religion in Global Health and Development* Benjamin Walker shows that the religious features of colonial state architecture were still operating by the turn of the twenty

first century Walker surveys the establishment of colonial development projects in the twentieth century with a focus on the period between 1940 and 1990 Crossing the colonial postcolonial divide analyzing local contexts in conjunction with the many layers of international organizations and identifying surprisingly neglected streams of personnel and funding particularly from Dutch and West German Catholics this in depth history offers new ways of conceptualizing global health Patchworks of international humanitarian intervention fragmented government services local communities and the actions of many foreign powers combined to create health services and the state in Ghana Religion in Global Health and Development shows that religion and religious actors were critical to this process socially culturally and politically *The Ideological Scramble for Africa* Frank Gerits,2023-03-15 In *The Ideological Scramble for Africa* Frank Gerits examines how African leaders in the 1950s and 1960s crafted an anticolonial modernization project Rather than choose Cold War sides between East and West anticolonial nationalists worked to reverse the psychological and cultural destruction of colonialism Kwame Nkrumah s African Union was envisioned as a federation of liberation to challenge the extant imperial forces the US empire of liberty the Soviet empire of equality and the European empires of exploitation In the 1950s the goal of proving the potency of a pan African ideology shaped the agenda of the Bandung Conference and Ghana s support for African liberation while also determining what was at stake in the Congo crisis and in the fight against white minority rule in southern and eastern Africa In the 1960s the attempt to remake African psychology was abandoned and socioeconomic development came into focus Anticolonial nationalists did not simply resist or utilize imperial and Cold War pressures but drew strength from the example of the Haitian Revolution of 1791 in which Toussaint Louverture demanded the universal application of Europe s Enlightenment values The liberationists of the postwar period wanted to redesign society in the image of the revolution that had created them *The Ideological Scramble for Africa* demonstrates that the Cold War struggle between capitalism and Communism was only one of two ideological struggles that picked up speed after 1945 the battle between liberation and imperialism proved to be more enduring *The North Carolina Historical Review* ,2014 [American Diplomatic History Since 1890](#) Wilton B.
