Uncommon Sense Howard Zinn, Dean Birkenkamp, Wanda Rhudy, 2016-01-08 Why Howard Zinn has become one of the most important and influential American historians is perhaps nowhere more evident than in this new book Few social critics have been as inspiring as the ever hopeful Zinn and unlike many historians Zinn turns historical details toward deeper observations on the universal truths and struggles of humankind His remarkable wisdom and insight can be found in his earliest writings through his latest essays speeches and plays *Uncommon Sense* brings together his most poignant and profound quotations from decades of writing and speaking The book reveals the philosophical side of Howard Zinn and a consistency of vision over 50 years on topics ranging from government to race history law civil disobedience and activism Offering quotations of universal and timeless quality the book shows why history will regard this historian as a political and moral philosopher in the company of Paine Jefferson Frederick Douglass and Martin Luther King Jr *Uncommon Sense*

Macedo, 2019-01-10 *Decolonizing Foreign Language Education* interrogates current foreign language and second language education approaches that prioritize white western thought Edited by acclaimed critical theorist and linguist Donaldo Macedo this volume includes cutting edge work by a select group of critical language scholars working to rigorously challenge the marginalization of foreign language education and the displacement of indigenous and non standard language varieties through the reification of colonial languages Each chapter confronts the hold of colonialism and imperialism that inform and shape the relationship between foreign language education and literary studies by asserting that a critical approach to applied linguistics is just as important a tool for FL ESL EFL educators as literature or linguistic theory

Decolonizing Educational Research Leigh Patel, 2015-12-11 *Decolonizing Educational Research* examines the ways through which coloniality manifests in contexts of knowledge and meaning making specifically within educational research and formal schooling Purposefully situated beyond popular deconstructionist theory and anthropocentric perspectives the book investigates the longstanding traditions of oppression racism and white supremacy that are systemically reseeded and

reinforced by learning and social interaction Through these meaningful explorations into the unfixed and often interrupted narratives of culture history place and identity a bold timely and hopeful vision emerges to conceive of how research in secondary and higher education institutions might break free of colonial genealogies and their widespread complicities

Pedagogy of Commitment Paulo Freire,2015-11-17 This first English translation of Pedagogy of Commitment takes readers deep into the acts and meaning of living a life of community and social commitment Paulo Friere discusses how for teachers specifically this commitment is not only to students to the underprivileged or to the education of those who speak a different language but to the transformation of the self to become more deeply responsive to the needs of social transformations More than any other Freire book this speaks directly and plainly to the lives of individuals and to teachers It is an inspiring and passionate call from a global giant of progressive education

Rethinking Online Education Bessie Mitsikopoulou,2015-11-17 Rethinking Online Education analyzes online educational materials on the recent Iraq war aimed to be used by U S educators in elementary and secondary schools It is suggested that far from being ideologically neutral these educational materials weave together resources which provide a coherent view of the Iraq war theme and can thus been seen as constituting a kind of an informal curriculum Mitsikopoulou argues that the teacher resources adhere to different pedagogical discourses and constitute materializations of two broad approaches to education A number of pedagogical issues are also raised in the discussion What is the difference between critical thinking and critical pedagogy How is the genre of lesson plan realized in different teaching philosophies and how do curricular texts change when they are delivered online This important book highlights the need to explore the new forms of textuality which emerge from online curricular materials and to develop an understanding of the processes of text composition distribution and consumption

Culture and Power in the Classroom Antonia Darder,2015-12-03 This is a timely second edition of the enormously significant book which changed how teachers and community activists view their own practice This edition concludes with personal essays by teachers professors and community activists explaining the direct impact which Culture and Power in the Classroom has had on their lives Unlike many texts that discuss educational failure this book provides a historical context for understanding underachievement in our nation Thoroughly revised to include the new thinking on diversity and learning this edition includes a new chapter on assessment and the brain This second edition will be welcomed by previous and new readers alike and will help influence the approach of a new generation of teachers whether they are based in schools colleges or community centres

Latino Civil Rights in Education Anaida Colon-Muniz,Magaly Lavadenz,2015-10-05 Latino Civil Rights in Education La Lucha Sigue documents the experiences of historical and contemporary advocates in the movement for civil rights in education of Latinos in the United States These critical narratives and counternarratives discuss identity inequality desegregation policy public school bilingual education higher education family engagement and more comprising an ongoing effort to improve the conditions of schooling for Latino children Featuring the perspectives and research of

Latino educators sociologists historians attorneys and academics whose lives were guided by this movement the book holds broad applications in the study and continuation of social justice and activism today **Paulo Freire and the Curriculum** Georgios Grollios, Henry A. Giroux, Panayota Gounari, Donaldo Macedo, 2015-11-17 How can Paulo Freire's progressive and vital contributions to curriculum planning can be made more relevant today for educators policy makers and anybody involved in education This book provides a necessary framework as it articulates significant questions The first deals with Freire's positions on curriculum planning the second is devoted to the historical development and the character of his perspective on curriculum planning and the third refers to the ways his perspective compares to others as well as to its contemporary value Freire's perspective comes into direct conflict with traditional views on curriculum planning the content of which represents what is perceived as the highest expression of Western civilization Freire also breaks with the dominant perspective of social efficiency on curriculum planning whose main aim is to supply via behavioral objectives the knowledge and skills deemed necessary for the efficient function of the economy and the society treats learners as passive receivers of knowledge and assigns to curriculum a technical character disarticulated from social political or ideological conflicts In addition he does not focus on studying the learner in an abstract or a historical framework nor does he adopt an individualistic interpretation which fetishizes spontaneity In contrast to traditional perspectives on the curriculum Freire provides a fertile ground for teachers and any others who seek to transform schools and improve student's learning and lives

Freedom at Work Maria E. Torres-Guzman, 2015-12-03 This book explores the freedom to use the language resources we have at our disposal to learn to our fullest to engage in inquiry about learning and teaching and to go beyond the surface in topics of schooling and education Within a particular school context the author explores how these freedoms came into being how they took shape and what they meant for the individuals involved She shows that the individual and social freedoms in which the teacher and the learner operate within schools are important measures and outcomes of intellectual development In connecting language culture learning and intellectual development as freedoms in her own life the author explores a new way of seeing the role of multiple languages in education and the freedom to learn **Latinization of U.S. Schools** Jason Irizarry, 2015-12-03 Fueled largely by significant increases in the Latino population the racial ethnic and linguistic texture of the United States is changing rapidly Nowhere is this Latinisation of America more evident than in schools The dramatic population growth among Latinos in the United States has not been accompanied by gains in academic achievement Estimates suggest that approximately half of Latino students fail to complete high school and few enroll in and complete college The Latinization of U S Schools centres on the voices of Latino youth It examines how the students themselves make meaning of the policies and practices within schools The student voices expose an inequitable opportunity structure that results in depressed academic performance for many Latino youth Each chapter concludes with empirically based recommendations for educators seeking to improve their practice with Latino youth stemming from a multiyear participatory

action research project conducted by Irizarry and the student contributors to the text **Changing Lives** Taylor Stoehr, 2015-12-22 *Changing Lives* recounts the experiences of a dozen men on probation in Massachusetts who took classes for three months to read and talk about great works of literature The men explored the writings of Malcolm X Leo Tolstoy and Anton Chekhov amongst others In these writings the men discovered many issues relating to their own lives such as substance abuse family breakdown poverty and racism The lessons create a safe space for reflection and earnest conversation in which the students no longer have to bluff or be cool guarded or evasive And because the classroom puts them on equal footing with authority figures teachers probation officers and even judges a new social awareness begins to emerge *Changing Lives* shows how reawakening moral consciousness and a fresh commitment to society is essential if probationers are not to cycle endlessly through the limbo of street life and jail time **School Library Journal** ,2006-04

battles and no fair impartial rules to govern the distribution of income wealth rights or opportunities But abandoning the search for them as futile does not mean junking the Enlightenment s core political goal to deploy the tools of reason and science to fight domination Democracy is essential to vindicating that goal yet citizens in many democracies are profoundly alienated and many democracies are in danger of failing Shapiro explains what has gone wrong debunks ill considered remedies and spells out better ones deepening and extending his previous writing on political theory and democratic politics
