Uncommon Emotions Special Edition:

Uncommon Emotions (Special Edition) Lynn Galli, 2010-03 As a turnaround specialist Joslyn Simonini spends her days analyzing corporate profit margins and trying to keep her likeness from being turned into a voodoo doll by company employees. If she does her job well they often lose theirs. So it comes as a surprise when she finds herself being kissed one day at work. She's even more shocked to find out that the mysterious kissing bandit is a woman. Not in the habit of kissing women, Joslyn tries to brush off the unintentional mistake. But before long she's forced to examine the rush of emotions that accompanied the kiss, especially when she meets Raven Malvolio. At first she needs Raven to complete her analysis, but she doesn't expect to need the friendship that Raven offers. When those friendly feelings escalate to something more, Joslyn's confusion and underdeveloped emotional range might ruin her chance at a relationship that could surpass even her dreams. *Uncommon Emotions* takes a look at how someone can think she's happy with her life only to be surprised by the passion she's yet to feel. Special Edition includes epilogue never before in print. *Uncommon Emotions* Lynn Galli, 2008 **Identifying**

Special Needs Glynis Hannell, 2013-11-20 Drawing from her experience as an educational psychologist and special education teacher, Glynis Hannell offers guidelines to help teachers quickly recognize and categorize the specific characteristics of developmental disorders, autism spectrum disorders, emotional/behavioral disorders, specific learning disorders, sensory impairments, and other forms of special need. The practical checklists and resources in this fully revised new edition help both classroom and specialist teachers to screen any student for possible special needs. Understand the causes and characteristics of various types of special needs. Request and prepare for an intervention or IEP team meeting. Link classroom observations to diagnostic criteria used by specialists. Create accurate and comprehensive profiles for individual students. Record each student's unique pattern of development within a special needs label. Quickly record important information and avoid writing time-consuming reports. Coordinate information from several teachers or professionals. Monitor progress and track significant changes over time. Involve parents in observing and discussing their child's pattern of strengths and challenges. Plan effective inclusive intervention in the classroom setting. Follow up with recommended further reading, websites, and professional references. Recognising special needs and identifying each student's unique profile of positive attributes and difficulties enables teachers and other educational professionals to ensure that all their students receive the support they need to succeed. *Hearts at Stake* G.L. short stories, songs, and poems has grown considerably, many of them have been previously published in magazines, etc. I decided it was high time to gather many of them together into an anthology that has a cohesiveness about it.
