Adam Smith's day to the 1990s for those with interest but not expertise in the field. Rusfeld U of Michigan explores the ideas and events which shaped competing economic theories over the past 200 years e.g. Marxism, women and the economy, the Keynesian r. Graduate Studies, 1990. **Market Regulation** Roger Sherman, 2008. Market Regulation gives students the economic intuition to analyze the history of antitrust and regulation, diagnose current corporate strategy and evaluate possible policy recommendations. Roger Sherman grounds modern examples in historical context and develops thought provoking discussions to motivate students from many different majors. The structure of the text can easily be adapted for use in a variety of courses. Three main sections: antitrust, industry regulation and social regulation present the basic theories. The industry regulation chapters, Part II, are self-contained for flexibility, covering specific industries such as communications, postal service and energy. Roger is one of those scholars who is a true credit to the academic world. Not only is he a fine researcher but he has been a great positive influence on graduate students and colleagues over the years. His book is a comprehensive treatment of regulation by one of the best qualified to write such a book. Michael Crew, Rutgers University.

*Economics Today* Roger LeRoy Miller, 2006. New edition of an established text highlighting the changes that technology has made on the economy and addressing such issues as scarcity and the world of trade offs, demand and supply, the public sector, economies in transition, the macroeconomy, classical and Keynesian macro analysis, consumption, fiscal policy, deficit spending, the banking system, monopoly, poverty and cybernomics. New additions include internet activities, cyberspace examples, current data, computerized test blanks, economic experiments in the classroom, an instructors resource disk, student study notes and a web site. Annotation copyrighted by Book News Inc, Portland, OR. **Macroeconomics** Andrew B. Abel, Ben Bernanke, 2001. Intermediate Macroeconomics. This text is the most even handed and comprehensive treatment of the competing classical and Keynesian approaches in the market. By starting with topics on which the two approaches agree, the book highlights the common ground between them and then clearly presents the outstanding differences within the context of a single framework. Macroeconomics now includes a password that gives students access to a special edition of The Conference Board's Business Cycle Indicators database containing over 100 hand-picked data series. Accompanying exercises in the text provide a unique opportunity for students to analyze the very data that policy makers, professional economists and government officials rely on in their day to day work. NEW: Earlier presentation of business cycles. NEW: Included are new EOC problems including the Conference Board exercises, many new applications and new built-in Web links. NEW: Web site features including Up to date version of The Conference Board's Business Cycle Indicators which students can access to complete the new Conference Board problems at the end of the text chapters. Sample worked problems. Self test quizzes.
