performance is largely stable Deals and Development explains how growth episodes emerge and when growth once ignited is maintained for a sustained period It applies its new framework to examine the growth of countries across a range of institutional and political contexts in Africa and Asia using the examples of Bangladesh Cambodia India Malaysia Thailand Ghana Liberia Malawi Rwanda and Uganda Through these country analyses it demonstrates the explanatory power of its framework and the importance of feedback cycles in which economic trends interact with political behaviour to either sustain or terminate a growth episode Offering a lens through which to analyse complex scenarios and unwieldy amounts of information this book provides actionable levers of intervention to bring around reform and improve a country's chance at achieving transformative economic growth
