Incarceration and Health Care Tamara White,2024-10-02 There is a lack of control that exists when managing a chronic illness just as there is a lack of autonomy when one finds themselves living within the confines of a correctional facility How does one address these two precarious circumstances when they collide Research has revealed that incarcerated populations have a higher rate of infectious disease and chronic health issues than their non incarcerated counterparts How is this reality translated in a way that others might understand As an avenue to gain a new perspective this book provides a glimpse into the world of incarceration and health care management using art to translate this experience Activist art is effective and powerful for both the audience and the creator By revealing the reality of living with a chronic illness and how social determinants of health significantly impact one s status and start in life art holds the power to shift perspectives and deepen understandings not only of health care and incarceration but also to agitate for societal changes

Borderless Fashion Practice Vanessa Gerrie,2023-06-16 Twenty first century fashion practice has become increasingly borderless and diverse in the digital era calling into question the very boundaries that define fashion in the Western cultural context *Borderless Fashion Practice* Contemporary Fashion in the Metamodern Age principally engages the work of four fashion designers Virgil Abloh Aitor Throup Iris Van Herpen and Eckhaus Latta whose work intersects with other creative disciplines such as art technology science architecture and graphic design They do their work in what Vanessa Gerrie calls the metamodern age the time and place where the polarization between the modern and the postmodern collapses Used as a framework to understand the current Western cultural zeitgeist Gerrie s exploration of the work of contemporary practitioners and theorists finds blurred borders and seeks to blur them further to the point of erasure

Installation Art Claire Bishop,2005 *Installation Art* provides both a history and a full critical examination of this challenging area of contemporary art from 1960 to the present day Using case studies of significant artists and individual works Claire Bishop argues that as installation art requires its audience to physically enter the artwork in order to experience it installation pieces can be categorised by the type of experience they provide for the viewing subject As well as exploring the methodologies of the artists examined Bishop also explains the critical theory that informed their work While revising and in some cases re assessing many well known names this fully illustrated book will introduce the reader to a wide spectrum of younger artists some yet to receive critical attention Book jacket
