abundance and ease of access Drawing on interviews in Spain the United Kingdom and the United States as well as extensive survey data *Avoiding the News* examines how people who tune out traditional media get information and explores their folk theories about how news organizations work The authors argue that news avoidance is about not only content but also identity ideologies and infrastructures who people are what they believe and how news does or does not fit into their everyday lives Because news avoidance is most common among disadvantaged groups it threatens to exacerbate existing inequalities by tilting mainstream journalism even further toward privileged audiences Ultimately this book shows persuading news averse audiences of the value of journalism is not simply a matter of adjusting coverage but requires a deeper more empathetic understanding of people's relationships with news across social political and technological boundaries
