Offending Youth Kerry Carrington, Margaret Pereira, 2009 Rates of female delinquency especially for violent crimes are increasing in most common law countries At the same time the growth in cyber bullying especially among girls appears to be a related global phenomenon While the gender gap in delinquency is narrowing in Australia United States Canada and the United Kingdom boys continue to dominate the youth who commit crime and have a virtual monopoly over sexually violent crimes Indigenous youth continue to be vastly over represented in the juvenile justice system in every Australian jurisdiction The Indigenisation of delinquency is a persistent problem in other countries such as Canada and New Zealand Young people who gather in public places are susceptible to being perceived as somehow threatening or riotous attracting more than their share of public order policing Professional football has been marred by repeated scandals involving sexual assault violence and drunkenness Given the cultural significance of footballers as role models to thousands if not millions of young men around the world it is vitally important to address this problem Offending Youth explores these key contemporary patterns of delinquency the response to these by the juvenile justice agencies and moreover what can be done to address these problems The book also analyses the major policy and legislative changes from the nineteenth to twenty first centuries chiefly the shift the penal welfarism to diversion and restorative justice Using original cases studied by Carrington twenty years ago Offending Youth illustrates how penal welfarism criminalised young people from socially marginal backgrounds especially Aboriginal children children from single parent families family less children state wards and young people living in poverty or in housing commission estates A number of inquiries in Australia and the United Kingdom have since established that children committed to these institutions supposedly for their own good experienced systemic physical sexual and psychological abuse during their institutionalisation The book is dedicated to the survivors of these institutions who only now are receiving official recognition of the injustices they suffered The underlying philosophy of juvenile justice has fundamentally shifted away from penal welfarism to embrace positive policy responses to juvenile crime such as youth conferencing cautions warnings restorative justice circle sentencing and diversion examined in the concluding chapter Offending Youth is aimed at a broad readership including policy makers juvenile justice professionals youth workers families teachers politicians as well as students and academics in criminology policing gender studies masculinity studies Indigenous studies justice studies youth studies and the sociology of youth and deviance more generally

Youth, Crime, and Justice Clayton A Hartjen, 2008-03-25 Close to half of the world's population is below the age of criminal jurisdiction in most countries. Many of these young people are living in poverty and under totalitarian regimes. Given their deprived and often abject circumstances, it is not surprising that many of them become involved in crime. In *Youth Crime and Justice*, Clayton A Hartjen provides a broad overview of juvenile delinquency: how it manifests itself around the world and how societies respond to misconduct among their children. Taking a global rather than country-specific approach, chapters focus on topics that range from juvenile laws and the correction of child offenders to the abuse, exploitation, and victimization of young people. Hartjen includes specific examples from the United States, Australia, Spain, Switzerland, New Zealand, Japan, India, Egypt, and elsewhere as he sorts through the various definitions of delinquent and explores the differences in behavior that contribute to these classifications. Most importantly, his in-depth and comparative look at judicial systems worldwide raises questions about how young offenders should be corrected and how much fault can be laid on misbehaving youths acting out against the very societies that produced them.

Youth Justice and Penalty in Comparative Context Barry Goldson, Chris Cunneen, Sophie Russell, David Brown, Eileen Baldry, Melanie Schwartz, Damon Briggs, 2020-10-29 This book represents the first major analysis of Anglo-Australian youth justice and penalty to be published, and it makes significant theoretical and empirical contributions to the wider field of comparative criminology. By exploring trends in law, policy, and practice over a forty-year period, the book critically surveys the moving images of youth justice regimes and penal cultures, the principal drivers of reform, the core outcomes of such processes, and the overall implications for theory building. It addresses a wide range of questions, including: How has the temporal and spatial patterning of youth justice and penalty evolved since the early 1980s to the present time? What impacts have legislative and policy reforms imposed upon processes of criminalisation, sentencing practices, and the use of penal detention for children and young people? How do we comprehend both the diverse ways in which public representations of young offenders are shaped, structured, and disseminated, and the varied conflicting and contradictory effects of such representations? To what extent do international human rights standards influence law, policy, and practice in the realms of youth justice and penalty? To what extent are youth justice systems implicated in the production and reproduction of social injustices? How and to what degree are youth justice systems and penal cultures internationalised, nationalised, regionalised, or localised? The book is essential reading for researchers, students, and tutors in criminology, criminal justice, law, social policy, sociology, and youth studies.
