Unfinished Worlds: Hermeneutics, Aesthetics and Gadamer

NICHOLAS DAVEY

EDINBURGH UNIVERSITY PRESS, 2013. Pp. viii + 130.
£70.00 (Hbk).

Nicholas Davey's book, *Unfinished Worlds: Hermeneutics, Aesthetics and Gadamer*, is a thought-provoking study of Gadamer's integration of hermeneutics and aesthetics. Importantly, Gadamer's fusion of hermeneutics and aesthetics reverses traditional conceptions of both disciplines. For example, hermeneutics is typically understood as focusing on meaning, whereas aesthetics is concerned with the particularities of visual, auditory, and related sensual experiences. Davey, however, shows how Gadamer challenges traditional accounts and the resultant consequences. Such consequences include: (a) an anti-essentialist account of the artwork as dynamic and relationally constituted, (b) a significant revision of the theory–practice relationship concerning art in particular and the humanities in general, (c) the elaboration of a hermeneutics of transformative experience, and (d) a redefinition of the nature of aesthetic attentiveness (2). Davey not only helps us to better understand Gadamer's re-orientation of aesthetics (the focus of chapter 1) and his philosophically robust account of the artwork, but he also critically and constructively questions Gadamer's insights, advancing and bringing them to bear on central issues in contemporary hermeneutics, philosophy of art and literature, aesthetics, and the humanities.

Davey's analysis and constructive development of Gadamer's contributions intersect with broader philosophical concerns of interest to both analytic and continental philosophical traditions. For example, is an excess of meaning a problem that constricts one's understanding of the aesthetic or does it enlarge one's understanding? Is ambiguity and multiplicity

of meaning something to be embraced (as Derrida and other contemporary thinkers claim) or avoided? Given certain readings of Gadamer as a traditionalist averse to ambiguity and fluidity, some might be surprised that his hermeneutical aesthetics is quite at home with polysemy, excess of meaning, and ever-open 'unfinished' worlds.

One of the central claims on which Davey dwells is Gadamer's proposal that artworks address us. That is, hermeneutical aesthetics maintains that artworks possess a meaningful content and such meaning is relational. In the experience of art's address, the viewer or auditor is both drawn in by the work and actively participates in its occurrence. Art's address has the capacity to transform one's horizon. As Davey explains, such a transformative experience

entails the cognitive relations within a spectator's outlook being transformed by those which constitute the work. This is made possible because of the surplus of meaning attached to visual signs and symbols as well as to the images of literature and poetry. (2)

Such symbols and literary ideas have the ability to function as placeholders in multiple discourses. This 'transactional capacity' of symbols and poetic and literary ideas, and what Gadamer calls 'subject-matters' (*Sachen*), allows a key term in one's home horizon to be 'transformed when that term meets different deployments within a foreign horizon' (2). In such an encounter, one's horizon is not superseded but rather acquires a significantly expanded, enriched form. This account of the transactional or placeholder capacity of symbols and subject-matters to operate across different horizons or frameworks of meaning not only provides an explanation of the structure of transformative experiences in art, but it also clarifies how 'the transformative capacity of interdisciplinary

Unfinished Worlds Hermeneutics Aesthetics And Gadamer Crosscurrents Eup:

Unfinished Worlds Nicholas Davey, 2013 Hans Georg Gadamer's poetics completely overturns the European aesthetic tradition. This full length study in English of Gadamer's aesthetics draws on a significant proportion of Gadamer's latter essays on art and aesthetics. It explores the far reaching consequences of Gadamer's hermeneutical critique of aesthetics.

Unfinished Worlds Nicholas Davey, 2013-11-18 Gadamer's aesthetics demonstrates that the experience of art is grounded in the objectivities of language history and tradition. By treating words and images as transmittable placeholders for meanings and concepts hermeneutics gives a persuasive account of how artworks communicate. Davey demonstrates how hermeneutics transforms aesthetic reflection into a poignant attentive practice that is open to the unexpected. This new poetics is relevant not only to the understanding of art but also to showing explaining and defending the cognitive content of the humanities. Hermeneutic aesthetics provides a sound basis for re thinking humanities disciplines as critical creative practices able to re envision the future.

Becoming of the Body Amaleena Damle, 2014-04-09 No detailed description available for *The Becoming of the Body*.

Event Universe Leemon B. McHenry, 2015-07-01 Leemon McHenry argues that Whitehead's metaphysics provides a more adequate basis for achieving a unification of physical theory than a traditional substance metaphysics drawing on Maxwell Einstein Quine Russell and Broad.

Figure of This World Mathew Abbott, 2014-01-08 What if we've been wrong when reading Agamben? Mathew Abbott argues that Agamben's thought is misunderstood when read in terms of critical theory or traditional political philosophy. Instead he shows that it engages with political ontology studying the political stakes of the question of being. Abbot demonstrates the crucial influence of Martin Heidegger on Agamben's work locating it in the post Heideggerian tradition of the critique of metaphysics. As he clarifies it Abbott links Agamben's philosophy with Wittgenstein's picture theory and Heidegger's concept of the world picture showing the importance of this for understanding and potentially overcoming the forms of alienation characteristic of the society of the spectacle.

Philosophy, Animality and the Life Sciences Wahida Khandker, 2014-07-21 Using animals for scientific research is a highly contentious issue that Continental philosophers engaging with the animal question have been rightly accused of shying away from. Now Wahida Khandker asks whether Continental approaches to animality and organic life will make us reconsider our treatment of non human animals. By following its historical and philosophical development she argues that the concept of pathological life as a means of understanding organic life as a whole plays a pivotal role in refiguring the human animal distinction. She explores the significance of this across philosophy and the life sciences through the work of a number of key thinkers of life and process from Henri Bergson to Donna Haraway.

The Aesthetic Hermeneutics of Hans-Georg Gadamer and Hans Urs Von Balthasar Jason Paul Bourgeois, 2007 Through a comparison of their aesthetics and hermeneutics this book reveals that both Gadamer and Balthasar reject an autonomous neutral distanced starting point for interpretation. Instead they advocate a dialogical model in which interpreters allow themselves to be engaged by the truth.

of the text or artwork at hand Both thinkers use aesthetic categories to describe this model of interpretation such as the neo Platonic category of radiance and both reflect a disclosure concealment theory of truth In recognizing that interpreters are part of an unfolding history and that the examination of historical texts cannot be done from a neutral standpoint they both acknowledge that textual interpretation must contain the dimension of dialogue with the past truths Significantly Balthasar incorporates these aesthetic and hermeneutical categories into an explicitly Trinitarian salvation history framework which is absent in Gadamer's thought This book concludes with the implications of an aesthetic hermeneutics for contemporary Roman Catholic theology and its dialogue with various schools of thought philosophical and religious arguing that the concrete particular forms of Christianity as expressed in Roman Catholicism cannot be bracketed or evacuated by Catholic theologians in the interest of achieving consensus in religious matters To the contrary it is precisely in these forms that we believe that God's revelation takes place

Gadamer on Tradition - Historical Context and the Limits of Reflection Anders Odenstedt, 2017-07-07 This book discusses Gadamer's theory of context dependence. Analytical and partly critical, the book also shows exegetical accuracy in the rendering of Gadamer's position. It explores the following questions that Gadamer's theory of context dependence tries to answer: in what way is thought influenced by and thus dependent on its historical context? To what extent and in what way is the individual able to become reflectively aware of and emancipate himself from this dependence? The book takes Gadamer's wide interests into account, e.g. issues relating to the history of historiography and the nature of art and aesthetic experience. The problem of the context dependence of thought is prominent in contemporary philosophy including the fields of structuralism, post-structuralism, deconstruction, certain forms of feminist philosophy and the philosophy of science. In this sense, the book discusses an issue with wide repercussions.

Philosophical Hermeneutics Hans-Georg Gadamer, 1977 This volume presents carefully selected essays from Gadamer's *Kleine Schriften*. The seven essays comprising Part 1 contain Gadamer's discussion of hermeneutical reflection. Part 2 consists of six essays dealing with phenomenology, existential philosophy and philosophical hermeneutics.

Unquiet Understanding Nicholas Davey, 2012-02-01 In *Unquiet Understanding*, Nicholas Davey reappropriates the radical content of Gadamer's philosophical hermeneutics to reveal that it offers a powerful critique of Nietzsche's philosophy of language, nihilism and post-structuralist deconstructions of meaning. By critically engaging with the practical and ethical implications of philosophical hermeneutics, Davey asserts that the importance of philosophical hermeneutics resides in a formidable double claim that strikes at the heart of both traditional philosophy and deconstruction. He shows that to seek control over the fluid nature of linguistic meaning with rigid conceptual regimes or to despair of such fluidity because it frustrates hope for stable meaning is to succumb to nihilism. Both are indicative of a failure to appreciate that understanding depends upon the vital instability of the word. This innovative book demonstrates that Gadamer's thought merits a radical reappraisal and that it is more provocative than commonly supposed.

Inheriting Gadamer Georgia Warnke, 2015-12-11 Hans-Georg Gadamer's philosophical hermeneutics, one of the seminal philosophies of the 20th century, has had a profound influence on a wide array of fields including classical philology, theology, the philosophy of the social sciences, literary theory, philosophy of law, critical social theory and the philosophy of art. This collection expands on some of these areas and takes his hermeneutics into yet new fields including narrative, medicine, biotechnology, the politics of memory, the philosophy of place and the non-verbal language of the body. And building on Gadamer's well-known discussions with Heidegger, Habermas and Derrida, *Inheriting Gadamer* sets him in dialogue with Mahatma Gandhi, Christine Korsgaard, Charles Mills and others. In these ways, the volume holds fast to a Gadamerian virtue: cultivating our important philosophical traditions while embracing the constant need to re-think their meaning in new circumstances and in relation to new knowledge.

Festivals of Interpretation Kathleen Wright, 1990-08-27 This book

engages and clarifies concepts crucial to Hans Georg Gadamer's philosophical hermeneutics including the concepts of effective history tradition dialogue and language Festivals of Interpretation exhibits the universal scope of hermeneutics The authors respond to three questions often raised about Gadamer's philosophical hermeneutics Part One takes up the question of how Gadamer understands truth It discusses how hermeneutical truth relates to methods how truth may be thought to be historically conditioned without at the same time being relative and how a truthful interpretation can produce a new understanding while simultaneously remaining faithful to the text Part Two brings out the political legal and social relevance of Gadamer's philosophical hermeneutics by focusing on the role interpretation plays in times of political crisis of disputes in Constitutional law of changing ideas of societal needs such as health care and of increased technological control of public opinion The last question often asked about Gadamer's work concerns its relation to poetry Part Three treats the challenge posed to philosophy by poetry in general and particularly by the poetry of Paul Celan as well as questions raised recently by Jacques Derrida about different ways of thinking about interpretation and text

Consequences of Hermeneutics Jeff Malpas, Santiago Zabala, 2010-05-30 Consequences of Hermeneutics celebrates the fiftieth anniversary of the publication of one of the most important philosophical works of the twentieth century with essay by most of the leading figures in contemporary hermeneutic theory including Gianni Vattimo and Jean Grondin

Gadamer's Hermeneutics Robert J. Dostal, 2022-01-15 In Gadamer's Hermeneutics Robert J Dostal provides a comprehensive and critical account of Hans Georg Gadamer's hermeneutical philosophy arguing that Gadamer's enterprise is rooted in the thesis that being that can be understood is language He defends Gadamer against charges of linguistic idealism and emphasizes language's relationship to understanding though he criticizes Gadamer for too often ignoring the role of the prelinguistic in our experience Dostal goes on to explain the concept of the inner word for Gadamer's account of language The book situates Gadamer's hermeneutics in three important ways in relation to the contestability of the legacy of the Enlightenment project in relation to the work of his mentor Martin Heidegger and in relation to Gadamer's reading of Plato and Aristotle Dostal explores both Gadamer's claim on the Enlightenment and his ambivalence toward it He considers Gadamer's dependence on Heidegger's accomplishment while pointing out the ways in which Gadamer charted his own course rejecting his teacher's reading of Plato and his antihumanism Dostal points out notable differences in the philosophers politics as well Finally Dostal mediates between Gadamer's hermeneutics and what might be called philological hermeneutics His analysis defends the civic humanism that is the culmination of the philosopher's hermeneutics a humanism defined by moral education common
