Tolkien For Beginners Louis Markos,2022-09-23 Tolkien For Beginners will introduce the reader to the multilayered depth and breadth of Tolkien s tales of Middle earth what critics following Tolkien s lead refer to collectively as his legendarium J R R Tolkien sweeps us away to a distant time and place that is at the same time our own time and place He takes us to a world where difficult choices must be made and are made where character is defined by those choices and where redemption is possible though not always embraced The Lord of the Rings taps a deep root in the human psyche There is much death destruction and defeat in Tolkien s world but there is even more friendship courage and hope What one remembers when one finishes reading The Lord of the Rings is not the vice of the villains as strong and as well drawn as it is but the virtue that empowers the heroes to resist it even at the cost of their own lives It will be the goal of Tolkien For Beginners to introduce the reader to the multilayered depth and breadth of Tolkien s tales of Middle earth To do justice to the full dimensions of that legendarium author Louis Markos will speak in two voices that of the storyteller who loves the stories he tells and that of the critic who seeks to identify and explicate key themes from those stories In his telling and analysis he will treat the legendarium both as a collection of secondary world myths with their own integrity and as a reflection of Tolkien s Catholic worldview

French Revolutions For Beginners Michael J. LaMonica, 2014-11-11 Allons enfant de la Patrie le jour de gloire est arriv Arise children of the Fatherland the day of glory has arrived These opening lines to La Marseillaise France s famously stirring and evocative national anthem capture perfectly the passion fear and frenetic energy of Republicanism s sanguinary birth on French soil Through the violence of the Revolutions yes there were many the reign of the Bourbon monarchy came to an end and modern France was born French Revolutions For Beginners examines the several bloody revolutions and counter revolutions throughout the course of the 19th century and the constant upheavals and disruptions in France s ever changing political landscape from 1789 1900 While most people have some familiarity with names like Louis XVI and Napoleon the details of what exactly happened during the French Revolution apart from pithy royal pronouncements about cake eating and the ever falling blade of the guillotine are often difficult to understand and for good reason there were a whopping 15 changes of government in less than a century The legacy of the French Revolutions remains with us today we see it all over the world when an oppressed people rise up against an authoritarian regime demanding their rights as citizens be recognized French Revolutions For Beginners presents the major political figures events and hot button political issues of this extremely violent chaotic confusing but always exciting period in a way that is accessible interesting and fun to both history buffs and the neophyte alike

Libertarianism for Beginners Todd Seavey, 2016-01-01 Libertarianism isn t about winning elections it is first and foremost a political philosophy a description of how in the opinion of libertarians free people ought to treat one another at least when they use the law which they regard as potentially dangerous If libertarians are correct the law should intrude into people s lives as little as possible

rarely telling them what to do or how to live A political and economic philosophy as old as John Locke and John Stuart Mill but as alive and timely as Rand Paul the Tea Party and the novels of Ayn Rand libertarianism emphasizes individual rights and calls for a radical reduction in the power and size of government Libertarianism For Beginners lays out the history and principles of this often misunderstood philosophy in lucid dispassionate terms that help illuminate today s political dialogue

Black Panthers For Beginners Boyd, Herb,2015-08-05 A crowd of onlookers gawked from the sidewalk as four young black men dressed in black leather jackets and berets leaped from a Volkswagen each of them wielding shotguns with bandoliers strapped across their bodies The young men surrounded two white police officers who had accosted a black man and had him spread eagled against a building The young men did not say a word as the police officers watched them nervously their eyes fixed on the shotguns One of the young men held a large law book in his hand This was the Black Panther Party in ideal action The real story the whole story was both more and less heroic So begins Black Panthers For Beginners The late 1960s when the Panthers captured the imagination of the nation s youth was a time of regulation While their furious passage was marked by death destruction and government sabotage the Panthers left an instructive legacy for anyone who dares to challenge the system Herb Boyd has done exhaustive research examined the claims of all parties involved and boiled the story down to the truth We believe this is the most truthful book on the market but each Panther has his or her own story to tell We suggest that you check out the stories of all the Black Panthers
