Which Side Are You On? Elaine Harger, 2016-02-26 Shattering any idea that librarianship is a politically neutral realm this insider's account of seven debates from the floor of the American Library Association Council illustrates the mechanisms the governing body used to maintain the status quo on issues like racism government surveillance and climate change At play in each debate are rules of parliamentary procedure appeals to authority denial and chastisement of librarians who pushed the ALA to make real its commitments to human rights and social justice Providing a fascinating look at the Council's inner workings the author parses debates concerning anti apartheid boycotts partnerships between ALA McDonald's and the Boy Scouts of America spying by the National Security Agency censorship in Israel and the Occupied Territories fossil fuel industry divestment and the recent revival by ALA's Office of Intellectual Freedom of the infamous film The Speaker

Corruption, Ethics, and Governance in South Africa Modimowabarwa Kanyane, 2024-05-20 This book assesses landmark empirical studies state capture concerns corruption and fraud in South Africa's public sector and thereby reflect on issues of accountability and ethics as cornerstones of governance Bringing together some of the best minds about corruption ethics and governance from a multidisciplinary perspective the book pushes critical thinking to interrogate interventions that could stamp out and stop the rot of corruption in society The book investigates the behaviours of officials and politicians engaging in acts of corruption and considers how state institutions have been captured and corrupted by these people Considering South Africa's historical and regional context the book also considers the role of watchdogs auditors and public opinion In suggesting mechanisms for combating and preventing corruption the book ultimately advocates for long lasting preventive interventions instead of current short lived and costly approaches to combating corruption Combining original case studies empirical work and some comparisons in Zimbabwe and Botswana with South

Africa this book will be of interest to students researchers and policymakers working on corruption ethics and governance from the context of public administration and law

The Origin and Growth of Geography as a discipline at South Africa Universities Gustav Visser, 2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future
