Mahaney, 2024-04-18 This book explores the evolution of Spanish feminism in the context of European feminisms and institutions from the 1960s to recent times Beginning with Sección Femenina the official Francoist women's organization Feminism National Identity and European Integration in Modern Spain traces the interplay between Spanish women's policy and international policymaking In some cases as with the Sección Femenina championed Law of Political Rights Ley de Derechos in 1961 Spanish women's policy at least appeared more progressive than what Western democracies offered notable at a time when Spain was considered

backward After Franco's death in 1975 Spain's democratic transition seemingly consolidated forward thinking women's policy with a Constitution that guaranteed equality of the sexes in 1978 and with the creation of a national bureau charged with crafting women's policy the Instituto de la Mujer Women's Institute in 1983 Yet feminists found themselves marginalized in Spanish political decision making as Kathryn L. Mahaney argues so successfully in this study Mahaney reveals that women ultimately influenced domestic policy not by acting within national networks but by leveraging European connections particularly after Spain joined the European Economic Community EEC in 1986 The book shows that Spanish feminists worked through the EEC to gain international approval of policies that had met domestic opposition and did so by representing them as necessary litmus tests of nations democratic integrity Their proposals were shaped by the specific context of Spanish feminism but also by Spanish debates about what rights democracies should grant women and what equality in a post fascist nation should encompass This ground breaking study explains that in turn these processes shaped both Spain's and the European Union's much prized self identities as democratic communities

The Oxford Handbook of the Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade
