United Nations Peacekeeping Operations Ad Hoc Missions Permanent Engagement:

United Nations Peacekeeping Operations Ramesh Chandra Thakur, Albrecht Schnabel, 2001 Features current United Nations peacekeeping operations with information provided by the Peace and Security Section of the United Nations Department of Public Information Provides background details and links to an interactive map of current operations The United Nations, Peace and Security Ramesh Thakur, 2016-12-13 Ending humanitarian atrocities has become as important for the United Nations as preventing interstate war This book examines the transformation of UN operations analysing its changing role and structure Ramesh Thakur asks why when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community He considers the tension between the United States with its capacity to use force and project power and the United Nations as the centre of the international law enforcement system He asserts the central importance of the rule of law and a rules based order focused on the United Nations as the foundation of a civilised system of international relations This book will be of interest to students of the United Nations and international organisations in politics law and international relations departments as well as policymakers in governmental and non governmental international organisations *United Nations Peacekeeping in the Post-Cold War Era* John Terence O'Neill, Nick Rees, 2005-10-05 This new study questions whether peacekeeping fundamentally changed between the Cold War and Post Cold War periods Focusing on contrasting case studies of the Congo Cyprus Somalia and Angola as well as more recent operations in Sierra Leone and East Timor it probes new evidence with clarity and rigour The authors conclude that most peacekeeping operations whether in the Cold War or Post Cold War periods were flawed due to the failure of the UN member states to agree upon achievable objectives the precise nature of the operations and provision of the necessary resources and unrealistic post 1989 expectations that UN peacekeeping operations could be adapted to the changed international circumstances The study concludes by looking at the Brahimi reforms questions whether these are realistically achievable and looks at their impact on contemporary peace operations in Sierra Leone East Timor and elsewhere **Games of Conflict and Cooperation in Asia** Motoshi Suzuki, Akira Okada, 2017-02-07 This edited volume is an outcome of the first major collaborative project between Japanese economists and political scientists funded by the Japan Society for the Promotion of Science The authors of the individual chapters show that Asian states play games of conflict and cooperation strategically by creating changing or destroying institutions For them conflict and cooperation are inseparable phenomena and are integral parts of states strategic interactions under constraints Through the establishment of appropriate institutions that coordinate states actions present conflict can be turned into stable cooperation in the future No discernible difference exists in the extent of rationality between the East and the West but substantial variations between regions or even within a region are found in institutions that are influenced by history and culture Historical and cultural variations divide contemporary Asia making regional institutional cooperation difficult and prompting some Asian states to use global or

inter regional arrangements in order to obtain benefits of cooperation Qualifications are provided for this line of argument in the first chapter which also discusses the affinity of international relations theory and game theory with special attention to Japan and Asia The following ten substantive chapters are developed based on the conceptual framework and for integrity and coherence are sub grouped into four parts that correspond to major issues in international relations scholarship 1

conflict management 2 arms control 3 trade and 4 currency **Fault Lines of International Legitimacy** Hilary Charlesworth, Jean-Marc Coicaud, 2010-02-25 This book examines the features and functions of international legitimacy and how these change over time *Religion, Pacifism, and Nonviolence* James Kellenberger, 2018-08-27 This book is about religion pacifism and the nonviolence that informs pacifism in its most coherent form Pacifism is one religious approach to war and violence Another is embodied in just war theories and both pacifism and just war thinking are critically examined Although moral support for pacifism is presented a main focus of the book is on religious support for pacifism found in various religious traditions A crucial distinction for pacifism is that between force and violence Pacifism informed by nonviolence excludes violence but the book argues allows forms of force Peacekeeping is an activity that on the face of it seems compatible with pacifism and several different forms of peacekeeping are examined The implications of nonviolence for the treatment of nonhuman animals are also examined Two models for attaining the conditions required for a world without war have been proposed Both are treated and one the model of a biological human family is developed The book concludes with reflections on the role of pacifism in each of five possible futurescapes Emerging Challenges in UN Peacekeeping Operations Dipankar Banerjee, Ramesh Chandra Thakur, 2006 This Book Is The Result Of An Intense Dialogue Over Two Days Between Senior Indian And Japanese Experts On Un Peacekeeping Operations In The Early 21st Century It Examines The Challenges Faced In Un Peacekeeping In The Light Of The Brahimi Committee Report Examines The Impact Of The Un High Level Panel S Report And International Commission Report On The Responsibility To Protect There Is An Excellent Case Study Of The Sierra Leone Operations And The Transition Of The Timor Leste Operations Finally It Examines Frankly The Constraints On Un Peacekeeping In The Current International Order And The Crisis It Confronts Today

The Psychology of Diplomacy Harvey J. Langholtz,Chris E. Stout,2004-04-30 The first book focused on diplomacy from a psychological perspective this work features 12 top diplomats and psychologists examining issues and approaches Factors considered include the implicit and explicit ground rules for the interaction of diplomats and their assumptions about their own roles and those of their counterparts The book explores the vital question Do diplomats meet to work out agreements and solutions for the common benefit of humanity or is it the responsibility of a diplomat to seek advantage for his or her own nation at the expense of others The topics include ethnic rivalry water resources and financial issues In some cases in this text the views of psychologists and diplomats are consistent But there is a gap between the two disciplines Psychologists tend to be more idealistic egalitarian and theory based while the diplomats most often focus on the practical realities of dealing with their counterparts and issues where opposing nations seek divergent outcomes The actual implementation of diplomacy and the psychology of diplomacy takes place not at the global or macro levels but instead at the one on one micro level This volume will appeal to students and scholars in students scholars and practitioners in psychology international relations peace studies and political science Unintended Consequences of Peacekeeping Operations Chiyuki Aoi,Cedric De Coning,Ramesh Chandra Thakur,Ramesh Thakur,2007 The deployment of a large number of soldiers police officers and civilian personnel inevitably has various effects on the host society and economy not all of which are in keeping with the peacekeeping mandate and intent or are easily discernible prior to the intervention This book is one of the first attempts to improve our understanding of unintended consequences of peacekeeping operations by bringing together field experiences and academic analysis The aim of the book is not to discredit peace operations but rather to improve the way in which such operations are planned and managed **Peace Research Abstracts Journal**,2003
