Ulterior Motives Covert Missions Book 3:

Ulterior Motives (Covert Missions Book #3) Mark Andrew Olsen, 2009-03-01 When an al Qaeda email is intercepted promising a New Year's Day attack on America it leads to the capture of the group's leader. But even under fierce interrogation the terrorist clings to his jihadist beliefs and resists divulging anything of the threat. Desperate, the Army resorts to a contingency plan that proposes to break a subject's resistance by inducing a religious conversion. One hitch: the top secret attempt must be masked as an offer of clemency and must rely on a completely innocent mentor, a so-called witness who is unaware of the project's true aims. They find that witness in Greg Cahill, a disgraced FBI agent who has since turned to Christ and serves in a prison ministry. Lured by an offer of restoration as well as the lifting of a restraining order that's keeping him from seeing his son, Greg begins an unlikely friendship with a man the entire country despises. Despite himself, he begins to share his faith, yet with a combustible result unforeseen by either himself or his government handlers.

Ten Years of Secret Diplomacy, an Unheeded Warning Edmund Dene Morel, 1920 **Ten Years of Secret Diplomacy** Edmund Dene Morel, 1915 **Covert Wars and Clash of Civilizations** Joseph P. Farrell, 2020-07-24 Oxford-educated historian Joseph P. Farrell delivers the sequel to his best-selling *Covert Wars and Breakaway Civilizations*, part of his book series on suppressed technology, Nazi survival, secret finance, and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control that very few people even suspect exists. Farrell delves deeper into the breakaway civilizations created by the Nazis in South America and other parts of the world. He elaborates on the advanced technology that they took with them at the end of World War II and shows how they created a huge system of hidden finance with the involvement of leading financial institutions around the world. He exposes the secret space programs used by the breakaway civilizations and reveals the clash of civilizations, a virtual secret war going on around us. He investigates the current space secrecy that involves UFOs, suppressed technologies, and the hidden oligarchs who control planet Earth for their own gain and profit. Farrell probes the mystery surrounding Dr. Kurt Debus and his links to NASA and Werner von Braun. He uncovers the covert operations of Richard Bissell, the flying saucer designs of Alfred Loedding and T. Townsend Brown, and strange activity on Mars involving UFOs. He explains the magneto-hydrodynamic anti-gravity drives that would easily power such craft. He includes a continued discussion of emulational technologies, those that can imitate acts of God/nature like earthquakes and storms from the standpoint of the culture of full-spectrum dominance and the culture of plausible deniability. Farrell includes plenty of astounding accounts, documents, and speculation on the amazing alternative history of hidden conflicts, secret oligarchies, and super technology.
