Customer Reviews Most helpful customer reviews 2 of 2 people found the following review helpful.Great book. By Jeremy I purchased this book as the textbook for a senior-level mathematics course in my undergrad. However, this book does not "read like a textbook." This book has been one of the easiest reads in a mathematics-heavy book I have ever had the pleasure of laying my eyes on. The pictures are clear, the words are concise, the ideas are organized logically and in proper order such that ideas are clearly described and explained in a manner that you don't have to be a mathematics major to understand what is being talked about. While I purchased this book as a necessity for my coursework, if you have any kind of interest in mathematics (or just logic/puzzle games) the book is extremely interesting and you will learn A LOT. Highly recommended. Very well-done book, especially for a topic as "obscure" as Grammar Girl Presents the Ultimate Writing Guide for Students (Quick Dirty Tips). 0 of 0 people found the following review helpful. It has been very useful in helping me understand simple concepts needed to do ... By Sarah A. McQueen This book is written very well. I use this book in conjunction with more formal Grammar Girl Presents the Ultimate Writing Guide for Students (Quick Dirty Tips) books. The writing is simpler and easier to understand than the more technical books. It has been very useful in helping me understand simple concepts needed to do my research. 0 of 0 people found the following review helpful.
